CHAPTER 1 OPERATION GUIDE

1. Brief of Function

This unit is a high-technology product suiting for the improvement of the society and meeting the demand of customers. It builds in the New Oxford English-Chinese Dictionary authorized by Oxford Publishing House, there are up to 120,000 words and phrases with specific definition stored. In addition, it includes Chinese-English Dictionary, English-English and English-Chinese Dictionary, and the four dictionaries can be cross searched to each other, which enables convenient inquiry. The unit collects about 280,000 words and phrases, and uses “TruVoice™”, a top pronunciation system of USA. The articulate and accurate pronunciation is of great help to improve your English. To solidify your groundwork of Chinese, the unit is equipped with Mandarin and Cantonese pronunciation system. Besides dictionaries, the unit also includes Organizer, Calculator, Reference, Games, Time, Calendar and System, etc.. So, it is not only an electronic dictionary but also a powerful organizer. The Key-entry operation, Touch-and-go operation, Handwriting Recognition make it very easy for you. The unit provides plenty of useful information for you to search quickly and conveniently, and helps you improve efficiency on study or work. Anyway, it is a powerful and necessary device for every one of you.

6 most important and useful new functions listed as follows:

- (1) The Oxford English-Chinese Dictionary
- (2) TruVoice™
- (3) Listening & Learning
- (4) Sentence Making
- (5) Schedule Class
- (6) Q9 Chinese Inputting System (Qcode Information Technology Ltd.).

Besides the special functions above mentioned, it includes Dictionary, Organizer, Reference, Calculator, Games, Time, System and Calendar. The following is the brief of these functions.

DICTIONARY

Oxford Dictionary

- Basic English words and phrases.
- Pronunciation of English, Mandarin and Cantonese.
- Powerful pronunciation system: all English words, phrases and example sentences can be pronounced.
- TruVoice™, the top pronunciation system of USA, the pronunciation is clear and accurate.

- Wisdom and Ordinary input methods.
- Inquiry of phrase, compound, derivative, example and others (including antonym and other relative words).
- Spelling Check and Nearest Word Search.
- Wild card and User's Dictionary.
- Cross-search: pick up a word or phrase to cross search to Oxford Dictionary, E-C Dictionary, C-E Dictionary or C-C Dictionary for English or Chinese definition.
- Store important words for Listening & Learning and Revision Test.

E-C Dictionary

- English words and phrases with specific Chinese definition.
- Pronunciation of English, Mandarin and Cantonese.
- Powerful pronunciation system: all English words, phrases and example sentences can be pronounced.
- Wisdom and Ordinary input methods.
- Search for Grammar, usage, antonym/synonym and examples.
- Spelling check and nearest word.
- Wild card and User's Dictionary.
- Cross-search: pick up a word or phrase to cross search to Oxford Dictionary, E-C Dictionary, E-E Dictionary or C-E Dictionary for Chinese or English definition.
- Store important words for Listening & Learning and Revision Test.

C-E Dictionary

- Chinese characters or phrases with specific English definition.
- Pronunciation of English, Mandarin and Cantonese.
- 12 input methods including Handwrite, CangJie, Simple, Radical, Taiwan, Mandarin, Cantonese, Strokes, DaYi, 5-Strokes, Q9 and Wang Ma etc.
- Wisdom and Ordinary input methods.
- Cross-search to Oxford Dictionary, E-C Dictionary and E-E Dictionary.
- Nearest word inquiry.
- Wild card and User's Dictionary.
- Store important words for Listening & Learning and Revision Test.

E-E Dictionary

- English word or phrases with specific English definition.

- English pronunciation.
- Wisdom and Ordinary input methods.
- Spelling check and nearest word.
- Wild card and User's Dictionary.
- Cross-search to Oxford Dictionary and E-C Dictionary.
- Store important words for Listening & Learning and Revision Test.

Network Dictionary

- More than one thousand of daily network-related words collected.
- Pronunciation of English, Mandarin and Cantonese.
- Wisdom and Ordinary input methods.
- Spelling check and nearest word.
- Wild card.
- Cross search to Oxford Dictionary, E-C Dictionary, C-E Dictionary and E-E Dictionary.

Conversation

- Collection of 8 languages: Chinese, English, Japanese, French, Spanish, German, Italian and Dutch, divided into nine categories of daily conversation.
- Chinese (Mandarin and Cantonese) and English conversation can be pronounced.
- English and Chinese words can be cross-searched to Oxford Dictionary, E-C Dictionary, E-E Dictionary and C-E Dictionary.
- The important conversations can be stored for Listening & Learning and Revision Test.

Vocabulary

- A great volume of various words stored.
- Pronunciation of English, Mandarin and Cantonese.
- Cross-search: pick up a word or character to cross search to Oxford Dictionary, E-C Dictionary, E-E Dictionary or C-E Dictionary for Chinese or English definition.
- The important words can be stored for Listening & Learning and Revision Test.

Listening & Learning

- Data can be saved at any time for Listening & Learning when you look up in Oxford Dictionary, E-C Dictionary, C-E Dictionary, E-E Dictionary, Conversation and Vocabulary.
- Including 6 parts: Oxford Dictionary, E-C Dictionary, C-E Dictionary, E-E

- Dictionary, Conversation and Vocabulary.
-- Set the mode of repeated playing.

User's Dictionary

- Directly search the user-defined words in Oxford Dictionary, E-C Dictionary, E-E Dictionary and C-E Dictionary.

Revision Test

- Data can be saved at any time for revision test when you look up in Oxford Dictionary, E-C Dictionary, C-E Dictionary, E-E Dictionary, Conversation and Vocabulary.
-- Oxford Dictionary Review, Eng-Chi Review, Chi-Eng Review, Eng-Eng Review, Conversation Review and Vocabulary Review are included.
-- Eng-Chi Dictionary Test, Oxford Dictionary Test, Vocabulary Test, Oxford Listening Test are included.
-- Available to inquire relevant records.

Sentence Making

- With five levels.
-- Hint and answer are provided.
-- Available to pick up an English word to cross search in Oxford Dictionary, E-C Dictionary and E-E Dictionary.

English Rules

- Two parts: Stress Rules and Grammar Notes.
-- Many rules in Stress Rules listed with examples.
-- Grammar Notes collects the important essentials of grammar.
-- Cross-search function is available.

ORGANIZER

Personal Information

- Personal information can be inputted in Chinese, English, numbers or symbols.
-- You can enter name, age, sex, home address, home telephone no., mobile phone no., email address, company address, company telephone no., company fax no., ID card no., travel doc. no. and its expire date, driving license no. and its expire date, credit card no.

- and its expire date, saving account no., cheque account no., blood type, doctor's name,
doctor's address, doctor's telephone no., dentist's name, dentist's address, dentist's telephone no. and other important item.
- You can edit, copy and save data.
 - Record can be locked for security purpose.

Telephone Directory

- Data can be inputted in Chinese, English, numbers and symbols.
- You can enter name, category, mobile phone no., email address, home telephone no., home fax no., home address, company telephone no., company fax no., company address and notes.
- Total 8 main categories: Relative, Friends, Classmate, Colleague, Client, Emergency, Company and Others.
- Three ways to search: sequential search, search by name and search by sort.
- You can review, search, edit, save and delete record.
- Record can be locked for security purpose.
- There are many build-in phrases to help you enter common words.

Business Card Directory

- Data can be inputted in Chinese, English, numbers and symbols.
- You can enter the name, company name, title, telephone no., fax no., email, address, district and notes.
- There are two ways to search: sequential search and search by name.
- You can review, search, edit, save and delete the data anytime.
- Data can be locked for security purpose.
- Lots of build-in phrases stored to help you enter common words.

Memorandum

- Data can be inputted in Chinese, English, numbers and symbols.
- Two ways to search: sequential search or search by keyword.
- You can view, search, edit, save and delete record.
- Record can be locked for security purpose.

Schedule

- Data can be inputted in Chinese, English, numbers and symbols.

- You can enter the date, time and details of the appointment.
- Three ways to search: sequential search, search by date and search by keyword.

You can

get the information quickly.

- Alarm function is available. When the set time is due, the alarm will ring automatically.
- You can view, search, edit and delete data.
- Record can be locked for security purpose.

Commemoration

- Data can be inputted in Chinese, English, numbers and symbols.
- You can enter the date, title and details.
- There are three ways to search: sequential search, search by date and search by keyword.

You can get the information quickly.

- You can view, search, edit, save and delete the records
- Record can be locked for security purpose.

Shorthand

- In this application, you can write down the events or the notes on the screen directly, it is very easy to view, edit, save and delete record.

Notepad

- Write or draw directly on the screen.
- Two ways to search: Search sequentially or by filename.
- You can view, edit, save and delete data.

Schedule Class

- Data can be inputted in Chinese, English, numbers and symbols.
- You can enter the subject, place, time and teacher's name.
- You can view, edit, save and delete record.

CALCULATOR

Simple Calculator

- Basic memory functions are available.
- Four operations: addition, subtraction, multiplication and division.
- Switch between plus and minus.
- Percentage (%) computation.

Scientific Calculator

- Four operations.
- Functions computation.

Paperless Calculator

- You can enter many values to perform four operations.
- You can request the series number and edit data.

Metric Conversion

- 12 kinds of common metric units.
- Two-way conversion between different units.
- View the exchange rate anytime.

Unit Conversion

- 6 kinds of common units.
- Two-way conversion between different units.
- View the exchange rate at any time.

Currency Conversion

- Many currencies stored for conversion.
- Different currencies are convertible in accordance with the rate.
- You can choose any currency to set the exchange rate.
- You can create eight currencies for conversion.

Financial Management

- You can store several accounts, handling credit and debit for calculating balance.
- You can create, edit, delete, transfer accounts and view reports.

Loan Interest

- Calculations on monthly payment and total interest.
- Inquiry for interest paid, principal paid, total amount paid and loan left of particular year and month.
- You can edit and renew the data.

Fixed Deposit

- Include periodically-deposit account, fixed deposit account and ordinary account.
- Calculations on interest, interest rate, term of annuity, principal, total

- amount and periodical payment.
- You can edit and renew data.

Loan Bidding

- Include simple Bidding Calculation and Complex Bidding Calculation.
- You can enter number of loan raiser, number of bidders, principal and bidding offer to calculate the total gain, the annual interest rate.
- You can edit and renew data.

REFERENCE

Past Dynasty

- It includes three parts: Rise and Fall of Dynasty, Past Dynasty and Gregorian Calendar to Dynasty.
- In Rise and Fall of Dynasty, you can inquire information about the first and the last emperor of every dynasty, its capital and the period.
- In Past Dynasty, you can search for information about the period during which an emperor was on the throne.
- In Gregorian Calendar to Dynasty, you can search for information about the corresponding dynasty during a certain time of Gregorian Calendar (BC2591-AD1911) and the emperor at that time.

Travel Guide

- Airlines, Airports, Temperature, General Information and Voltage & Frequency are included.

Size Equivalent

- The size of Men's shirts and Shoes, Women's Blouses and Shoes are listed for your reference.

English Name

- Many English names and the corresponding Chinese names are provided for your reference, you can search for them by the first letter of the English name.

Telephone Information

- International codes and area codes of different cities all over the world are

collected.

Health Guide

- First Aid Knowledge, Vitamin Guide and Standard Weight are included.
- In Standard Weight, you can enter the height to check the standard weight.

World Festival

- Festivals all over the world are introduced.

Past Poems

- Lots of poems from Spring and Autumn Period to modern times are collected.
- Four ways to search: by dynasty, by author, by poem name, search through all records,
 - which will help you to get the desired information quickly.
- You can save several poems for future inquiry.

Maths Formula

- commonly used formula
- 6 categories with 39 sub-categories, total 130 groups of formula.

Analects of Flower

- Different kinds of flowers and amount stand for different meaning.

GAMES

Brick Game

- There are 16 levels and 3 types of speed: high, middle and low.
- You can view the Top 10.
- Pause function is available.

5-Tile

- 5-Tile chess is an interesting and intelligible game.

Wisdom Chess

- This is an intelligible game to improve your ability of analysis.

Solitaire

- An interesting card-playing game

Hangman

- Three levels: low, high and random.
- Press  to listen to the English pronunciation.
- You can view the result of the game.

Riddle

- A lot of riddles are provided for entertainment.

Quibble

- Lots of witty and humorous puns are stored for relaxation.

Typing Expert

- Three levels: Level 1, Level 2 and Level 3.
- It will help you get familiar with the position of different keys so as to improve your typing skills.

Frog

- You'll always find it exciting from Level 1 to Level 5.

Pipe

- Include 3 levels.
- You can view the Top 10.
- Pause function is available.

TIME

Local Time

- It displays the name of the city, current date and time of the city.
- You can set time format display, Daylight Saving Time, daily alarm, city name, date, time and tell-time language.
- It tells time upon the alarm time.

World Time

- It displays the name of the city, current date and time of the city.
- You can set time format display, tell-time language, Daylight Saving Time, city name.
- It tells time upon the alarm time.

CALENDAR

Lunar and Solar calendar

- You can search for dates in solar calendar from 1900 to 2059 and its corresponding dates
in lunar calendar.
- You can create or edit Commemoration or Schedule records as reminder.
- It displays an entire month on each page with marks of Commemoration and Schedule records, you can check them easily.
- The commemorative records will be marked on the same date of each year.

SYSTEM

System Setting

- Language: set display mode as English, Traditional and Simplified Chinese fonts.
- Keytone: on/ off setting
- Set Password: enter password to secure data
- Auto Off Period: set the auto-power-off time
- Speech Level: adjust the speed of pronunciation, intonation and volume
- Recognition
Glossary: set Common or All glossary
Normal and Simple Chinese Recognition: set the traditional Chinese or Simplified Chinese as the recognition of the front of handwriting
- Input Method: set Wisdom or Ordinary input method
- Calibration: calibrate the location of the stylus
- First Screen: set Main Menu, Resume Screen or Notepad as the opening screen when turning on the unit
- Touch Panel Sound: set it On/Off
- Game Lock: set password to lock games

Data Deletion

- You can select to remove the data of EC User's Dictionary, CE User's Dictionary, EE User's Dictionary, Memo, Schedule, Business Card Directory, Telephone, Commemoration, Notepad, Shorthand, Personal Information, Schedule Class, Revision Test, Opening Screen or delete all the data in all applications.

Memory Check

- The percentage of remaining memory is displayed.

Brief of Function

-- Functions of this unit are introduced briefly.

PC Sync.

-- You can connect the unit with PC to synchronize data freely between them.

Handwrite Pad

-- You can connect the unit with PC to work co-operatively with Handwriting Recognition

program on series of operations. (Please additionally purchase a set of software of Handwrite Pad)

Others

Chinese Input Method

-- There are 12 input methods: Handwrite, Taiwan, Mandarin, Cantonese, Strokes, 5-Strokes, CangJie, Simple, DaYi, Q9, Wang Ma and Radical.

English input method

-- Handwriting Recognition and Key-entry

2. General Operation Guide

2.1 Unit On/Off

Press the button in the front of the unit tenderly to open it, you can adjust the angle as you like to keep the unit steady. When you close the unit, just fold it softly and there will be a click that indicates it is closed well.

2.2 About Power Supply

The unit is powered by 2 AAA alkaline batteries. When the message “Low battery! Turn off machine” appears on the screen, it indicates the power supply is weak, please replace the batteries with new ones immediately.

Steps of replacing the battery:

1. Turn off the unit.
2. Push the battery compartment door on the back of the unit to the position of “UNLOCK”, and tenderly push the door in direction of the arrow to open it.
3. Replace with new batteries, and make sure that the polarities of the batteries fit the marks on the unit.
4. Cover the battery compartment door, and push it to the position of “LOCK”,

otherwise,
the unit can not be turned on.

Cautions:

1. Follow the right procedures and make sure that the polarities of the batteries are correct.
2. Never leave used batteries in the battery compartment.
3. Please use alkaline batteries, do not use new battery together with the old one.
4. To avoid data loss, please permanently keep good batteries in the unit for sufficient power supply.

About using adapter:

1. Press  to turn off the unit before plugging in the adapter.
2. Press  to turn off the unit before unplugging the adapter. If the unit hangs because of improper use, take out the batteries and then replace them again. If necessary, use .

3. Specification

Hong Kong:	Input :	AC220v	50Hz
	Output:	DC6V	350mA
Taiwan :	Input :	AC110	60Hz
	Output:	DC6V	350mA
U.S.A :	Input :	AC110V	60Hz
	Output:	DC6V	350mA

4. You are highly recommended to use the AC adapter provided by our agency or other qualified brands. We assume no responsibility for any damage to the unit arising through the use of AC adapters which do not conform to product standard.

5. To keep the real-time clock in the unit working properly in case of a sudden power cut,

please always keep good alkaline battery in the unit even if you are using an AC adapter.

2.3 Keyboard Layout

 - (4)  Return to main menu
 - (5)  View operation instruction
 - (6)  Enter EC Dictionary
 - (7)  Enter CE Dictionary
 - (8)  Enter Telephone Directory
 - (9)  Enter Notepad
 - (10)  Switch to capitalization temporarily
- For its special function, please refer to the part of Special Function

Keys

- (1)  Input “ * ”
- (2)  Display special symbols
- (3)  Insert a space
- (4)  Switch between English and Chinese input method
- (5)  Input “ ? ”
- (6)  Selection of Chinese input methods
- (7)  Confirm selected item and inputted data
- (8)  work as “=” in Calculator
- (9)  The first tone in the input methods of Taiwan and Mandarin
- (10)  Linefeed
- (11)  “ü ” in Mandarin
- (12)  Display / hide on-screen keyboard
- (13)  Delete the letter or symbol to the left of the cursor
- (14)  Store a record of Dict.
- (15)  Mark/unmark a record in Organizer

- (14)  Enter Simple Calculator
Enter submenu of Games
- (15)  Clear inputted data / return to the previous screen
Display current time
- (16)  Display the previous or next record or turn page up / down
Move the cursor up or down while inputting data in Organizer
- (17)  Move the cursor up
Switch between uppercase and lowercase
- (18)  Move the cursor down
Enter edit mode
- (19)  Move the cursor to the left
Delete the letter or symbol over the cursor
- (20)  Move the cursor to the right
Switch between inserting and overwriting mode
- (21)  Reset the system (If the unit doesn't work properly, tap the key with the head of the pen or the things like that to reset the system, so as to make the unit run well.)
- (22)  Cantonese pronunciation

Special Function Keys

The followings are special function keys. You should press  first and then press special function key to perform corresponding function instead of pressing them simultaneously.

1.  +  Show or hide the on-screen keyboard
2.  +  Selection of input methods
3.  +  Inquiry of operation instruction
4.  +  Enter CE Dictionary
5.  +  Enter Notepad
6.  +  Enter submenu of Games
7.  +  Display current time
8.  +  Display special symbols
9.  +  Switch display mode between English and Chinese
10.  +  Store record of Dictionary for Listening & Learning and Revision Test
11.  +  Mark / unmark a record of Organizer
11.  +  Linefeed

12.  +  Switch between inserting and overwriting mode
13.  +  Delete a letter or symbol over the cursor
14.  +  Switch between uppercase and lowercase
15.  +  Enter edit mode

2.4 Lens

1.  Enter Oxford Dictionary
2.  Enter CE Dictionary
3.  Enter Time
4.  Enter Simple Calculator
5.  Enter Calculator
6.  Enter Notepad
7.  Return to main menu
8.  Confirm
9.  Return to the previous screen

2.5 Input Methods

Chinese input methods

-- Press  or  +  to switch to Chinese input mode, and then input Chinese.

-- Tap  on the top of screen or press  +  to display Chinese input methods

(12 input methods are provided, i.e. Taiwan, Mandarin, Cantonese, Strokes, 5-Strokes,

CangJie, Simple, Radical, DaYi, Handwrite, Q9 and Wang Ma) , an icon, which represents a Chinese input method, will show on lower left screen after choosing a desired input method (e.g. ), so select one by key-entry or touching screen.

Note: Cangjie and Simple only exist in traditional Chinese mode, and Wang Ma only

exists in simplified Chinese mode.

-- Press   to display more candidate characters

- Press the corresponding numeric key to select the desired character or tap it with the stylus slightly to choose it.
- You can also tap  to switch to Handwriting Recognition mode. In this mode, write on the screen and then tap the desired character at the selection field to choose it.

Taiwan

Input characters by Taiwanese phonetic alphabets.

e.g. input “< 一 ㄨ” and then press  to input the first tone, press , ,  for the second, the third, the fourth tone respectively, press  for soft tone.

Mandarin

Input Mandarin phonetic alphabets.

e.g. input “QING”, then press . (It’s the same as Taiwan to input tone.)

Cantonese

Input Cantonese phonetic alphabets,

e.g. input “CHING”, then press  to confirm.

Strokes

Input characters by inputting total number of strokes. e.g. input “8”, and then press

 to confirm.

5-strokes

5-strokes is an input method through which input the codes of the first four strokes of the character and the last stroke. If a character has less than five strokes, just input the codes of the strokes it has accordingly.

Chart of 5-strokes code

Code	Stroke	Strokes	Description
------	--------	---------	-------------

1	horizontal	left→right	— ’
2	vertical	upper→lower	
3	left-falling	upper right→lower left	ㄟ
4	right-falling	upper left→lower right	ㄨ
5	turning	with turning	乙 ㄚ ㄗ ㄛ ㄜ ㄝ ㄞ ㄟ ㄠ ㄡ ㄢ ㄣ ㄤ ㄥ ㄦ ㄧ ㄨ ㄩ ㄣ ㄤ ㄥ

e.g. input “11211”, and then press  to confirm.

CangJie (only exists in traditional Chinese mode)

Input the Cangjie codes of a character,

e.g. input “手一月”, and press  or  to confirm.

(Please refer to *Chart of Cangjie Input Method*)

Simple (only exists in traditional Chinese mode)

It is similar to CangJie, but only needs to input the first and the last code of the Chinese character.

e.g. input “手月”.

Radical

Firstly input the number of strokes of the radical, then input number of remaining strokes after choosing the desired radical.

e.g. input “5” and press  to confirm.

Choose “玄” and input the remaining Strokes

“6”, press  to confirm.

DaYi

Input character by DaYi codes.

e.g. input “日月”, and then press

 to confirm.

Wang Ma (only exists in simplified Chinese mode)

Usually, to find a character, input the codes of first three roots and the last root. If the character has less than 4 roots, just input the codes of its roots plus a recognition code to make it 4 codes. If this still cannot make 4 codes, use SPACE key to make the balance.

e.g. input “QGTY” to find “鮓”.

Please refer to *Chart of Wang Ma 5-strokes Input Method*

Q9

Q9 is one of Chinese input methods which finds a character by inputting the codes of 5 basic strokes and 4 assistant radicals. According to the rules of Q9 input method, you only need to input at most 3 codes of a character.

Rules:

1. 5 basic strokes include horizontal (—), vertical (|), left-falling (/), dot (\) and

turning (Z).

The radicals include (□) (卩) (艹) (辶), however, rising stroke is used as

horizontal and right falling stroke used as dot.

One radical is regarded as one stroke.

2. Based on the structure of Chinese characters (whether stroke order of the character is

from top to bottom or left to right), they are categorized as Dutizi (e.g. 安, 立, 人) and Hetizi (碼, 選, 貓).

3. As for a character of Dutizi, input the first two codes in stroke order from top to bottom

or choose its radical directly. At most 2 codes should be inputted.

4. As for a character of Hetizi, input two codes sequentially of the left part of the character,

then input the first code of the right part, or choose the radical of the left part plus the

first code of the right part. At most three codes should be inputted.

e.g. to input “港”, just tap the first two codes of left part and the first code of right part sequentially.

“Dot (\) → Dot (\) → radical (卩)”

- Note:** 1. Adequate radical should be used in priority to improve the speed of inputting.
2. Some strokes of difficult characters can be regarded as radicals to reduce the chance of inputting wrong character.

Handwriting Recognition

Tap  to switch to Handwriting Recognition. Write down the characters in the square on the screen. (The program will recognize the characters automatically.) Tap the desired character at selection field.

Recycling Recognition

If the desired character is not found in the first round of recognition, tap  to search for it beyond selected glossary continuously. (Tap  to recycle the process of recognition)

- The following symbols will be provided for selection:
!@# \$ % & - / () ' < > [] = - X ? * ^ { } ” | = \ , . ; :

2.6 Categories of Contents

There are total eight categories in the unit: Dictionary, Organizer, Calculator, Reference, Games, Time, System and Calendar.

Main menu:

- Press     to choose a desired item.
- After you choose a category, press     to move the cursor and then press  to enter into the application or tap the desired application to choose it directly.

2.7 Cautions

- Please pay attention to the following items while you use the unit, otherwise we will charge the cost of materials for maintenance.
- Avoid humidity, never let water or other liquid flow into the unit.
 - Don't place the unit under direct sunlight or near heat.
 - Do not repair the unit by yourself, please contact our Customers Service Center for repair.

- Prevent the unit from falling down on the ground, bending or strong impact.
- Don't apply strong detergent cleaning agents to clean the unit.
- Don't touch the screen with sharp-headed objects.
- Never leave used batteries in the battery compartment, if not use the unit for a long time,
please take out the batteries, so as to avoid the batteries leaking.
- Before doing reset or sending the unit for repair, please keep a copy of all important data
so as to re-input them later.

System Initialization

After replacing the batteries, press  or press  because of malfunction of the unit to initialize system, the message "Initialize System?" will appear on the screen, press  to reset the system, the message "用戶資料重新設定?" will be shown. So, you can select to clear or keep all the data: press  to remove all the data, press  to keep them. (Please confirm before pressing .) If you press  and the message "全部用戶資料將刪除" will appear to warn you. If you press  again, all the data will be deleted, press , the data can be kept. After initializing the system, the main menu will appear.

Keeping another record of important data

We strongly recommend you to keep separate written records of all important data, we assume no responsibility for any damage or loss caused by deletion of data as a result of malfunction, repair or battery replacement. We also assume no responsibility for any loss or claim by the third parties, which may arise through the use of this product, e.g. the number of the credit card is stolen or data has been revised, etc..

2.8 Default System Setting

Local City: Hong Kong
 Time Format: 12
 Alarm: Off
 DST: OffCH
 Keytone: On
 Touch Panel Sound: On
 Menu Display Mode: Chinese
 Language: Traditional
 Input Method: Wisdom
 Auto Off Period: 3 minutes
 First Screen: Main Menu
 Memory Check: 100%
 Set Password: None

2.9 Auto-Power-Off

1. To save power, the unit will be automatically switched off if it is left idle within the automatic power-off period. Press  to restart it.
 2. If automatic power-off takes place while inputting or editing, the data you are working on will not be saved.
 3. The alarm will still function upon the set time even if the unit is powered off.
- Note:** The automatic power-off period 1~30 minutes can be set in System Setting.

2.10 Trouble-shooting

Q: The unit can not be switched on, why?

A: The following causes are possible

1. The batteries are weak, please replace the used batteries with new ones or use adapter.
2. The batteries are not placed properly, please make sure the polarities are correct.
3. The battery compartment door is not closed, please cover the door.
4. The battery compartment lock is not on the right position, please push it to the position of “Lock”.

Q: The pronunciation is too weak /loud, the speed is too slow /fast, and the tone is too low

/ high, why?

A: It's likely to set the volume too high / low, the speed too slow / fast, and the tone too

low / high, please adjust the volume, the rate and the frequency in Speech Level. In addition, you can adjust volume by using the volume button on the right side of unit.

Q: Why is the screen not clear?

A: The screen contrast is probably not adjusted well, please use the contrast button on the left side of the unit.

Q: Why does the calibration fail?

A: It's possible to calibrate improperly, please make the calibration again. You are highly recommended to use stylus instead of finger to avoid error that may lead to failure of touching the screen.

Q: Why is the unit often off automatically?

A: The auto-off period is too short. So, please set the Auto Off Period in System Setting again. The auto-off function helps you save electricity of battery. The longer is the auto off period, the more electricity is used.

Q: If the password is forgotten, what to do?

A: Please contact our Customer Service Center, we would remove the password as soon as possible. And you are strongly recommended to keep a separate record of

your
password.

CHAPTER 4 CALCULATOR AND FINANCE

Simple Calculator

It contains the functions of the calculator, which includes four operations, square, square root and percentage calculation. (Both Key-entry and Touch-and-go operations are supported.)

Choose “Simple Calc.” from calculator menu screen, then press .

Calculate $126+12=?$.

Input “126” and press  (i.e. “+”), input “12” and then press  (i.e. “=”) to get: $126+12=138$.

Press  or touch  to clear all the inputted data and begin another calculation.

Press  or touch  to clear the inputted data.

Calculate $200 \times 10\% = ?$.

Input “200” and press  (i.e. “×”), input “10” and press  (i.e. “%”), then press  (i.e. “=”) to get: $200 \times 10\% = 20$.

Press  (i.e. “M+”) to store the value to the memory.

Press  (i.e. “M-”) to clear the value stored in the memory.

Press  (i.e. “MR”) to retrieve the value stored in the memory.

Press  (i.e. “MC”) to clear the value stored in the memory.

Calculate $\sqrt{81} = ?$.

Input “81” and press  (i.e. “√”) to get:

$\sqrt{81} = 9$.

Calculate the multiple of “3”.

Input “3” and press  (i.e. “×”), then press  (i.e. “=”) to get: $3 \times 3 = 9$.

Press  (i.e. “=”) again to get: $3 \times 3 \times 3 = 27$.

Press  to return to the calculator menu screen.

Scientific Calculator

In this application, you can perform arithmetic calculations, function operations and other calculations. You can also modify the data inputted anytime. (Both Key-entry and Touch-and-go operations are supported.)

Choose “Sci. Calc.” from calculator menu screen, then press .

Calculate $1234 + 867 + \cos 30 = ?$.

Input “1234” and press  (i.e. “+”).

Input “867” and press  (i.e. “+”).

Touch “cos” in the left side of the screen.

Input “30”, then touch [Calc.] or press  (i.e. “=”) to get: $1234 + 867 + \cos 30 = 2101.8660254038$.

Press  or touch [Renew] to clear the calculation and start a new calculation.

Paperless Calculator

You can store the calculations and their results, view or modify the inputted data anytime. You can also calculate after modifying. (Both Key-entry and Touch-and-go operations are supported.)

Touch the “dec point” field.

Press  to pull down the list of the dec point.

Press   to select the desired item, e.g.

“3 dec point” (“3 dec point” means to display the value with three digits after decimal point),

then press .

Touch the “Result” field.

Calculate $160+240-157=?$.

Input “160” and press (+) (i.e. “+”), input “240” and press (-) (i.e. “-”), input “157”, then press = (i.e. “=”) or touch [Calc.] to get: $160+240-157=243.000$.

Another calculation: $240 \times 2 - 144 = ?$.

Input “240” and press (x) (i.e. “×”), input “2” and press (-) (i.e. “-”). Input “144”, then press = (i.e. “=”) or touch [Calc.] to get: $240 \times 2 - 144 = 336.000$.

Touch formula on the left screen to edit the inputted data directly.

Press (A) (V) to select the previous or next calculation.

Press (CAPS) (EDIT) to select the row to edit.
e.g. press (CAPS) to select the second row.

Press (I) (i.e. “÷”) and “8”, change “+240” to “÷8”, then press = (i.e. “=”) or touch [Calc.] to get the new result.

Touch the “Calculation” field and input the number of the desired calculation, then press = or touch [Calc.], the calculation will be shown on the left side of the screen.

Touch [All] or [This] to clear all data or single data, press (N) to retain or press (Y) to delete all data or single data.

Metric Conversion

Metric units of various categories, such as length, area, volume and weight are

provided for conversion. And two-way conversions are available for any units of the same category. (Both Key-entry and Touch-and-go operations are supported.)

Touch the “Type” field. Press  to pull down the list of the type, press   to select the desired item, then press . e.g. select “Length”.

Touch the “Unit” field on the left, press  to call out the unit list, then press   to select the desired unit and press  to confirm. e.g. select “feet”.

Touch the “Unit” field on the right, then select another unit in the same way mentioned above. e.g. select “metres”.

Touch [Ratio] to view the rate.

Input “5”, then press  or touch [Calc.] to figure out “5 feet =1.524 m”.

Unit Conversion

It provides various categories, such as length, area, pressure, etc. And two-way conversions are available for any units of the same category. (Both Key-entry and Touch-and-go operations are supported.)

Touch the “Type” field, press  to pull down the list of the type, press   to select the desired item, then press . e.g. select “Length”.

Touch the “Unit” field on the left, press  to call out the unit list, then press   to select the desired unit and press  to confirm. e.g. select “metre”.

Touch the “Unit” field on the right, then select another unit in the same way mentioned above.

e.g. select “foot”.

Touch [Ratio] to view the rate.

Input “3”, then press  or touch [Calc.] to figure out “3metre=9.8425196850394foot”.

Currency Conversion

Totally 24 currencies are provided for your conversion. You can set the exchange rate and any two currencies can be converted based on the set rate. You can also define 8 currencies by yourself. (Both Key-entry and Touch-and-go operations are supported.)

Touch the “Currency” field on the left, press  to call out the list of the currency, then press   to select the currency name, press  to confirm.
e.g. select “dollar AUD”.

Touch the “Currency” field on the right, then select another currency name in the same way mentioned above, e.g. select “dollar USD”.
Touch the “Rate” field on the left, input the rate”1.315” and press  to confirm.

Touch the “Exchange” field on the left, input “200”, then press  or touch [Calc.] to get the conversion result.

Select “Unnamed1-8” from “Currency” field to self-define the currency.
e.g. highlight “Unnamed1”

Touch [Edit] to self-define the selected user-define currency.

Input the currency name. (9 Chinese characters or 18 English letters can be inputted for the currency name.)

e.g. input “Rouble” and press  to save.

It will appear in the currency list.

Note: the new currency you created can be converted with other currencies.

Financial Management

In this application, you can manage different kinds of accounts like Transfer, Credit and Debit, etc.. The data can be edited while viewing. (Both Key-entry and Touch-and-go operations are supported.)

Inputting Data

Enter “Financial Management”, touch [New] to enter edit mode to input data.

Input data, press  to move the cursor to the next field once completing one.

Touch [Renew] to renew the data.

Press  or touch [Save] to save data after completing input.

Press   to choose an account, touch [New] to create a new record.

If no card can link with it, press  or touch the deal area on the upper left area to change another one to continue the game until all cards in deal area have been turned up or no card is left in the three piles.

Touch [New] to start a new game; touch [Cards] to return to the Bare or Covered cards selection screen, touch [Ga. Pa.] to return to the Time or Score Game selection screen, touch [Gear] to return to the Round or Chain Gear selection screen, touch [Rules] to view the game rules, touch [Menu] to return to game main menu.

Hangman

There are three levels in this game: Low, High, and Random. A row of line segment will be displayed in the upper left screen after choosing the level, the number of the line segment is the same as the letters of the word to be guessed. One chance will be deducted if you input an improper letter or listen to the pronunciation once, if you lose 10 chances but can not guess the exact word, you will lose the game. (Both Key-entry and Touch-and-go operations are supported.)

Choose and enter “Hangman”, press  or touch the screen to select level.

Press  to listen to the pronunciation of the word, then input the word. (The letters of the word are the same as the number of the line segment.)

Touch the function keys on the right screen to perform the relevant functions.

If you get the exact word, “You are right!” will be displayed; otherwise, “You are wrong!” will appear. Press  to view the explanation of the word in Oxford Dictionary. Press  to escape.

Riddle

A great many interesting riddles have been collected for your guess. (Both Key-entry and Touch-and-go operations are supported.)

Choose and enter “Riddle”, press   to view the previous or next riddle.

Touch [Ans.] to view the answer.

Touch [Menu] to return to game main menu.

Press   to escape.

Quibble

The game provides many interesting and humorous quibbles for you to guess and appreciate. (Both Key-entry and Touch-and-go operations are supported.)

Choose and enter “Quibble”.

Press   to view the previous or next quibble.

Touch [Ans.] to view the answer.

Touch [Menu] to return to game main menu.

Press   to escape.

Typing Expert

There are three levels in the game. You only need to press the relevant key according the letter(s) which will fall down from top of screen to get scores. This game will help you improve your typing speed and know the keyboard very well. (Both Key-entry and Touch-and-go operations are supported.)

Choose and enter “Typing Expert”.

Input you name, and press  to confirm.

Press   or touch the screen to select level, then press  to start the game.

Letter(s) will keep on falling down from top of screen, you need to press the relevant key according to the letter(s) shown on the screen, then the letter(s) will disappear, and the score will increase.

If you gain 2500 points at Level 1 or 2 within eight chances, it will go to the higher level automatically. Otherwise the game is over, if your score is high enough to be listed on Top 10, press  to enter Top 10.

Frog

There are five levels, different speed at different level. (Key-entry and Touch-and-go operations are supported.)

Choose and enter “Frog”, press   or touch the screen to select level.

Press     to move the frog to pass through the highway and across the river safely to reach the bank.

Note: 1. There are three chances, when the three chances are used up, i.e., the frog is

knocked down by cars, eaten by crocodiles, or falls into the river, then the game is over.

2. If eight frogs reach the bank successfully, the game will go to a higher level automatically.

3. The score will increase when you move the frog one step foreword and double score will be added when a frog reaches the bank.

Pipes

There are three levels in the game, the difficulty is different at each level. To play the game, touch a brick to link with a pipe and make the water flow through a certain amount of pipes.

Choose and enter “Pipes”, press   or touch the screen to select a level, then touch a brick to link with a pipe to start the game.

Press  or  to pause the game, and press  or touch  again to resume the

game.

Press  to escape.

- Note:**
1. There are 3 levels in this game, 5 sub-levels in level 1, and you must pass the 5 sub-levels before entering level 2. In the first sub-level, you should make the water flow through 20 pipes, otherwise you will lose a chance; and refer to that, after the water flowing 24 pipes you will enter Level 2. Like Level 1, the water should flow through 24-29 pipes before you can pass the relative sub-levels to enter Level 3. In Level 3, there are no sub-levels, if the water can not flow through 30 pipes you will lose a chance, and you can play the game continuously until the game is over when 3 chances are used up.
 2. There are three chances in the game, if the water does not flow the relevant number of pipes, you will lose a chance, until three chances are used up. If your score is high enough to be listed on Top 10, the name you input will enter Top 10.
 3. The 4 pipes that shown on the screen as hints. The first one from the top down will be displayed after you tap the brick, then others will be displayed randomly.
 4. Once the water flow through a pipe, you will get 50 points. Tap the pipe without water to change its shape, but 50 points will be deducted every time.

 2. To perform this function, you should purchase the particular disposal. For details, please contact our service center.

CHAPTER 10 APPENDIX

Appendix 1 PC Sync.

1. Installation

1) Minimum Requirements

- INSTANT-DICT™ MD8000
- Appointed IC Card

- Disk of PC Sync.
- PC, which can be linked with Internet
Chinese or English Windows System: Suggests to use Pentium or above, or to use other 100% compatible PC with 32M Bytes RAM or more, and Windows® 95, Windows® 98, Windows® Me or Windows® 2000 can be used.

2) Hardware Installation & General Operation Guide

- Please use the serial cable to connect the unit with PC, the smaller side insert Data-Link jack of the unit, and another side insert serial port of PC.

3) Installation

- Enter Chinese or English Windows® 95, Windows® 98, Windows® Me or Windows® 2000.
- Insert PC Sync. program floppy disk into the floppy drive, type a:\setup.exe and then click “確定(OK)”.

- Choose a Windows system you need, and click “執行(Go)”.

- If you are sure to install this program, please click “下一步(Next)”.
- If you want to cancel the installation, please click “取消(Cancel)”.
- Click “下一步(Next)” to continue installing following the screen instructions.

till the installation complete.

Note: While the installation completed, the “PC Sync.” window will be display, and Windows will be restart.

2. Uninstallation

- If you are sure to remove the program from your computer, just run “Uninstall” to remove it.

- Click “開始反安裝(Start to uninstall)” to remove it, otherwise please click “取消(Cancel)” to quit.
- Uninstall the program will also cancel the relative settings, icons and the program files.

3. General Operation

1) Start-up

- When installation completed, click “同步處理圖誌  (PC Sync. icon)”, which appears on the taskbar, to run the program.

2) Synchronization Menu

- Click “同步處理圖誌(PC Sync. icon)” to call out the menu.

- ◆ 關閉傳輸功能(Disable connection): Disable the connection between PC and INSTANT-DICT
- ◆ 切換連接為平行端口(Change connection to Parallel port): Change the connection to Parallel port
- ◆ COM 通訊串口切換(Change COM port): Switch COM port between COM1 and COM2
- ◆ 同步處理設定(Setup Synchronization): refer to “3. Synchronization Setup” for details
- ◆ 下載開機畫面(Download Welcome Screen): refer to the instructions of “First Screen” in chapter 9
- ◆ 中斷同步處理(Break Synchronize): Break the synchronization
- ◆ 結束同步程式(End of Synchronization): Exit PC Sync. program

3) Synchronization Setup

- Click “同步處理設定(Setup Synchronization)”.

- ◆ Show confirm delete dialog box:
During synchronizing, it will show a dialog box for you to confirm the deletion if a certain record was deleted in either side of the unit or PC, but was not modified in another side.

◆ Auto sync.:

Set PC Sync. to auto-test the unit to enter synchronization or not, and auto-handle it; if not confirm to select, the synchronization cannot be done.

➤ Please select the items for synchronization.

Note: Only the selected items can be synchronized.

Advance Level

[General]

Data Source:

Microsoft Outlook

➤ Method:

➤ Synchronize

When the same record is modified on both PC and Dictionary, you can select either one of them, and there will be the following conflict items:

- (1) Replaced with INSTANT-DICT data
- (2) Replaced with PC data
- (3) Duplicated both records
- (4) Show dialog

Note: Since the last synchronization, if records are added, deleted, modified on either one of Dictionary or PC, when synchronizing, new data will be added to the other side, or the relevant data on the other side will be deleted or overwritten (Records on the other side haven't been modified). If the same record is modified on both sides, the conflicts will be displayed.

➤ PC write to INSTANT-DICT:

When transmitting data from PC to Dictionary, there are two items as below:

- (1) PC data join to INSTANT-DICT
- (2) Clear INSTANT-DICT data first then copy PC data

➤ INSTANT-DICT write to PC

When transmitting data from Dictionary to PC, there are two items as below:

- (1) INSTANT-DICT data join to PC
- (2) Clear PC data first then copy INSTANT-DICT data

Note: When choosing one-way transfer, e.g. transfer data from Dictionary to PC, there are two items for choosing (seeing the two graphics above). If no data in Dictionary, and “Delete the data in PC first, and all of them will be replaced by data in Dictionary” is selected, all of the data will be deleted.

4. Synchronization

- Before the synchronization, you should connect the unit with PC first (refer to “Hardware Installation and General Operation Guide”), after that, turn on the unit, and then choose “PC Sync.” from System menu.

- Click [Detail] to view the details of last synchronization, click [Start] to start synchronizing

Note: 1) Before clicking [Start] to start synchronizing, you should make sure that the PC Sync. program has been installed in the PC and has run.
 2) Before clicking [Start] to start synchronizing, you can do a series setting first (refer to that of Synchronization Setup for details).
