7.

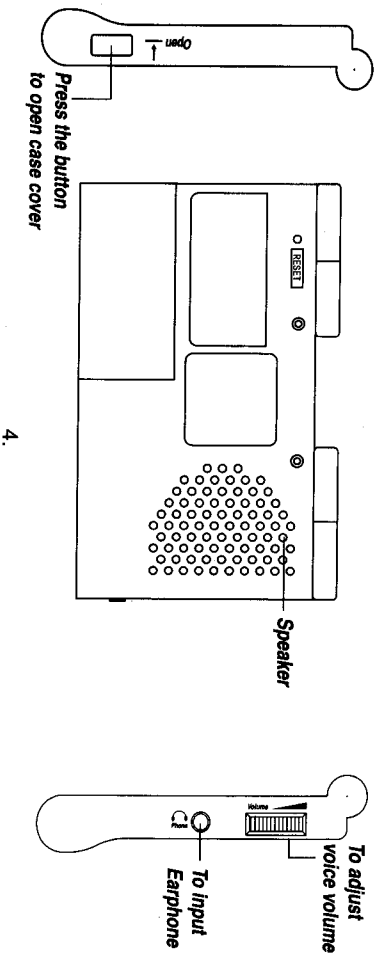

9. 1st line speak

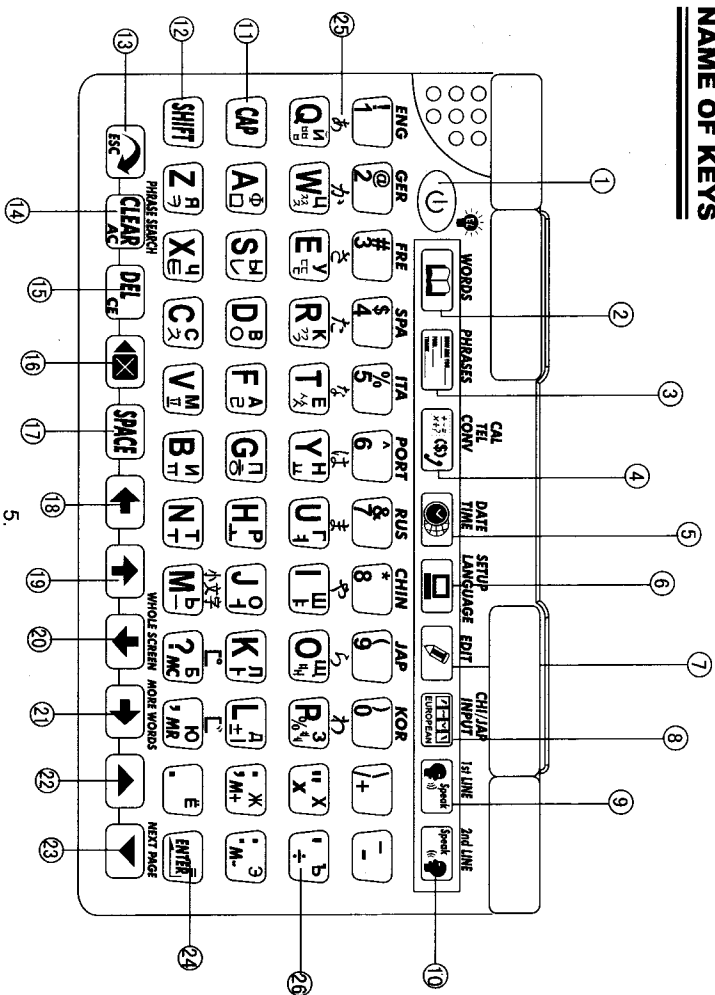

Replacing the databank memory backup battery:
 Before replacing the memory backup battery, Do not removed the 2 pcs AAA batteries from the Translator while memory backup battery is removed. With this way the memory in your databank will not be lost during the battery replacement. Be sure to replace the memory backup battery at least once a year.

1. Turn off the machine.
2. Unscrew the battery cover and replace it with a new one. Wipe the surface of the battery with a soft, dry cloth. Make sure that the positive(+) side of the battery are facing up.
3. Replace the battery compartment cover and fasten it with screw.

OVERVIEW THE TRANSLATOR

NAME OF KEYS

6. **LOCAL TIME CLOCK** specifies your local date and time. **ALARMS** you when you preset your alarm time. Alternative American or English date format, 12-hour or 24-hour format and summer daylight saving time.
7. **WORLD TIME** shows the date and time of any one of 200 major cities in the world.
8. **CURRENCY CONVERSION** functions as a currency converter for 8 denominations of your choices.
9. **EURO Converter.**
10. **METRIC CONVERSION** converts automatically 8 different types of measurement.
11. **LIGHT/DARK DISPLAY** allows you a choice of 5 levels either light display or dark display.
12. **PERSONAL PASSWORD** allows you to lock your databank memory.
13. **Read by 4 LINES x 22 CHARACTER DOT MATRIX DISPLAY.**
14. **AUTOMATIC POWER OFF** conserves battery power allows you a choice by turning off the translator from 1 to 15 minutes.

BATTERY FITTING

Your translator is powered by two AAA batteries in the main power supply, and one CR2032 lithium battery in the databank memory. When the power lever of the batteries is low, the sound becomes weak and hoarse, the display is dim. If happens, replace 2xAAA alkaline battery immediately. The actual service life depends on the batteries you use, we recommend:

2.

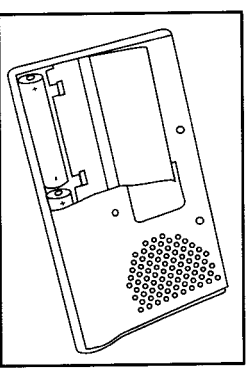

- Keep the 2 pcs AAA batteries always in the machines otherwise the backup battery for databank will consume very soon.
- Replace the 2 pcs AAA batteries supplied with the unit not longer than 3 months of purchasing.
- Be sure that the positive and negative poles of each battery are facing in the proper direction.
- Never mix batteries of different types.
- Never mix old batteries and new ones.
- Never leave dead batteries in the battery compartment.

Replacing the main battery:

Before replacing the main battery, Do not remove the memory backup battery from the Translator while main batteries are removed.

- a) Turn off the machine.
- b) Slide off the battery door according the direction of the arrow indicated. The battery door is linkage with translator case.
- c) Remove the old batteries and replace 2 PCS AAA batteries (1.5 V, SUM-4, R3) in the correct polarity corresponding to the symbol indicated inside the battery compartment.
- d) Make sure that the batteries make a good contact with the metal plates.
- e) Cover the battery door.

3.

OPERATIONAL NOTES

Thank you for your purchase of our Translator. To insure trouble-free operation of your Translator, we recommend the following:

1. The Translator should be kept in area free from extreme temperature changes, moisture and dust.
2. This equipment is precision-built. Do not subject the translator to strong shock by striking or dropping it.
3. A soft, dry cloth should be used to clean the translator. Do not use solvents or a wet cloth.
4. Never disassemble or attempt to repair the translator and its accessories. Keep this manual for further.
