## Keyboard

The standard American QWERTY keyboard upgraded with a phonetic Russian layout and additional German characters allows you to enter any word just in seconds.

Each national character set is linked to its input mode, indicated in the screen's upper right-hand corner by capital letters E, R, or G. Input modes can be switched consecutively in the above sequence by pressing the ⇔ key. In the main dictionary, however, the input mode selection is handled automatically to comply with the current source language, and the ⇔ key is used for changing the translation direction.

To enter Russian letters Ю, Ъ or German letters Ä, Ö, Ü, ß, press and release SHIFT prior to pressing the corresponding letter key.

The function and control keys are described below.

### *Direct Function Shortcut Keys:*

DICT	Main Dictionary
MENU	Main Icons Menu
	Telephone Directory
	Calculator
	PC-Link
SENTENCE TRANSL.	Sentence Translation

Number keys may be used as function shortcuts only when the *Icons Menu* is displayed (see next section for more information).

**Control and Editing Keys:**

..	Cursor movement and highlighting
..	Cursor movement and line scrolling
◆	Paging
ENTER	Effect current selection
ESC	Abort or clear the screen
SHIFT+MARK	Mark user record as password protected
SYMBOL	Display set of available symbols
SHIFT+SETUP	Setup and adjustment of features
SPELLER (▼ or ▲)	Launch the spelling checker in the main dictionary
SPACE	Enter a space
SHIFT+EDIT	Switch from record viewing to editing
SHIFT+DEL	Delete character or record
SHIFT+INS	Toggle Insert / Overwrite
↔	Switch input mode or translation direction
🔊	Activate the speech function

Computational symbols and operations are available in the *Calculation* section.

**Icons Menu**

The Language Teacher® EGR486T features a new start-up interface with two sets of functional icons, which visually organize and facilitate access to the dictionary's multiple sections.

The *Icons Menu* appears after a system initialization, upon pressing the MENU key, or whenever you exit a section by pressing the ESC key. The first set of icons includes, from left to right, top to bottom: *Dictionary, Grammar, TOEFL, Idioms, Irregular Verbs, User's Dictionary, Dialogs, Game Center, World Time, Local Time.*

The second set of icons contains: *Telephone Directory, Memo, Schedule, Calendar, Calculation, Metric Conversion, Currency Exchange, Sentence Translation, PC-Link, Setup Main Menu.*

- To display the *Icons Menu*, press MENU.
- Alternate between the two sets of icons by pressing the ▲ or ▼ key.
- Use arrow keys to highlight icons.
- Press ENTER to open the section whose icon is highlighted.

In addition, icons of each set\* are numbered from 1 to 0 to allow for the selection to be made also by pressing a corresponding number key on the keyboard.

## **POWER SUPPLY**

The Language Teacher® EGR486T is powered by two (2) AAA batteries. When the batteries become weak, you will see the message "Low Battery Voltage. Turn off the machine".

In order to prevent an excessive discharge of batteries and resulting loss of data in RAM, the dictionary turns itself off automatically and cannot be used until you install a new set of batteries. Replace the complete set of batteries promptly. Do not mix old and new batteries.

- Press the ON/OFF key to turn the unit off.
- Remove the battery compartment cover by sliding it away from the unit.
- Remove the used batteries and replace them with new ones.
- Make sure to place the batteries according to the polarity markings (+ -) inside the compartment.
- Put back the battery compartment cover by sliding it toward the translator. Make sure the cover sits in place properly.

---

\* Captions and symbols at number keys refer only to options of the first *Icons Menu*.

- ◆ **Note:** After replacing the batteries, if the prompt SYSTEM INITIALIZATION. PRESS (Y/N) appears on the screen, press the N key to retain user's data in RAM.
- ◆ **Note:** After purchasing the Language Teacher® EGR486T remove the insulation stripe from the battery compartment. It was installed to prevent the discharge of batteries during storage and transportation.
- ◆ **Note:** Never try to remove batteries from the translator when the power is on. This can seriously damage the device. If you experience difficulty turning the unit off, press the RESET button on the back side of the unit and reinstall the system.
- ◆ **Note:** A compact CR1220 battery is used for memory backup. It is recommended to replace it once a year.
- ◆ **Note:** The Language Teacher® EGR486T is equipped with a jack for external power supply. Contact your dealer to order a compatible AC/DC adapter or call 1-800-710-7920 within the continental US, 812-545-3838 in Russia, or 30-8950-3535 in Germany. **Use of an inappropriate external power supply may cause failure of the unit and void the warranty.**

- Highlight a translation with the  key and press  to listen to the pronunciation of the highlighted translation.
- Press SHIFT +  to listen to the pronunciation of all displayed translations.
- ◆ **Note:** T-T-S is able to generate pronunciation of any English, Russian, or German text, not limited to dictionary entries. Simply type a word or phrase on the input screen of the corresponding dictionary and press  to listen to its pronunciation. For example, type “BROOKLYN BRIDGE” in the English-Russian or English-German dictionary, press  and listen to its English pronunciation.
- ◆ **Note:** Using the *Setup Main Menu* you may adjust the frequency and speed of the speech shaping your own pronunciation style.
- ◆ **Note:** The Language Teacher® EGR486T is equipped with a volume control switch and an earphone jack, located on the translator’s right-hand and left-hand edge, respectively. By plugging in the earphone you disconnect the built-in speaker. Pull the earphone connector out of jack to re-activate the speaker’s function.
- ◆ **Note:** Contact your dealer or ECTACO, Inc. at 1-800-710-7920 in the US, 812-545-3838 in Russia, or or 30-8950-3535 in Germany for earphone specification.

## GRAMMAR

The Language Teacher® EGR486T offers a section of English and German Grammar programmed into the electronic device. A supplemental book written by Prof. Max Sukhan, which explains difficult parts of English and German grammar to Russian speakers, is included in the package.

- Select  on the first *Icons Menu* to access the *Grammar* directory.

1. ENGLISH GRAMMAR  
2. GERMAN GRAMMAR

- Press (1) for English grammar, (2) for German grammar.

1. SEARCH BY SCREEN  
CODE  
2. SEQUENTIAL SEARCH

- Press (1) to retrieve a topic by its screen code.
- Press (2) if you want to go step by step through all topics.
- Use the . or . key to scroll the screens within each topic.
- ♦ **Note:** A topic's screen code can be viewed by pressing the N key. To search by screen code from within the text, press S for an entering prompt.

- ◆ **Note:** You may listen to the pronunciation of the examples displayed on the screen by pressing the  key.

## TOEFL

The Language Teacher® EGR486T “Professional” contains a practical preparation guide for the *Test of English as a Foreign Language* (TOEFL), which is required of non-native English speakers as part of the admission procedure to an American college. This section offers you a unique opportunity to practice a computerized test version as it is likely to be presented to you at a real examination.

- Select  on the first *Icons Menu* to access the *TOEFL* menu.

The *Tutorial* provides you with general information about the requirements, structure, and duration of a TOEFL test. The *Tutorial* text is available in English, German, and Russian. These options can be selected from the *Tutorial* submenu.

- Select the option *Tutorial* on the *TOEFL* menu and choose the language you want to read the *Tutorial* in.
- Read the *Tutorial*, using **..** for scrolling by line, **◆** for paging.

After you become acquainted with the *TOEFL* basics set forth in the *Tutorial*, you might feel prepared to practice in answering questions. For your convenience, sample questions are arranged in two sequences, represented by the options *Sample Tests* and *Sample Exercises*.

- Select the option *Sample Tests* on the *TOEFL* menu to open its submenu, which includes four tests options.

Each test contains Multiple Choice questions pertaining to all three sections of a standard *TOEFL*, which are referred to under the names: *Listening Comprehension*, *Structure and Grammar*, *Reading Comprehension*.

- Select the option *Sample Exercises* on the *TOEFL* menu to open its submenu, which includes three options corresponding to the sections of *TOEFL*.

The *Sample Exercises* option allows you to practice each of the three sections of the *TOEFL* test separately. The questions from the four available *Sample Tests* are rearranged depending on which section of the test they belong to. The sections are further subdivided into two or three parts comprising questions of the same type. For example, parts of *Structure and Grammar* are *Sentence Completion* and *Error Identification*:

- By selecting the *Toefl Help* option you can obtain detailed directions for the types of exercises included in the current menu.

Regardless of which practice form you have chosen, each sample question is structured as follows:

- Question text (not displayed in the *Listening Comprehension* section )
- Four answer versions lettered A, B, C, D, immediately following or included in the question text
- Answer selection line at the bottom of the screen

6. Bernard Foucault  
\_\_\_\_\_ in 1851 that the  
Earth is rotating.  
A. who proved  
B. proved  
C. he proved  
D. it was proved  
CHOOSE: A B C D

- Use or . . for scrolling.
- Press the M key to display a pop-up menu, which includes the options:
  - A. Say hidden text
  - B. Show hidden text
  - C. Show right answer
  - D. Go to
- ◆ **Note:** The options *Say hidden text* and *Show hidden text* only work with questions from the *Listening Comprehension* section, and are disabled elsewhere.
- Select *Say hidden text* to hear a *Listening Comprehension* question text again
- Select *Show hidden text* to display a *Listening Comprehension* question text
- Select *Show right answer* to see the correct answer

---

\* The questions of the *Listening Comprehension* section, instead, are *spoken out* for you while only answers are displayed.

- ◆ **Note:** Use these options only for self-checking: *Say hidden text*, *Show hidden text* and *Show right answer* are promptings that must be resorted to as sparingly as possible since they will not be available during a real test.
- To jump to a specific question, select *Go to* and specify a question number
- Select an answer by highlighting the corresponding letter on the bottom line with the .. keys.
- To go to the next question, press SHIFT + ▼. In the *Sample Exercises* section, a message appears momentarily telling you whether your answer was right or wrong.

When you return to the TOEFL menu, a message box is shown, which includes information on the total number of questions, number of correct answers, and your score, which is based on a formula used for real TOEFL tests.

## AMERICAN IDIOMS

Over 200 popular American idioms and their equivalents or translations are included into the Language Teacher® EGR486T's *Idioms* directory. All idioms are listed in the alphabetical order.

## GAME CENTER

Your Language Teacher® EGR486T features four fascinating games. Each game has three difficulty levels.

Select  on the first *Icons Menu* to access the *Game* directory.

### *Typing Game*

- Select *Typing Game* on the *Game* menu. This game is designed to help you improve your typing skills.

- Choose a difficulty level to start a game.
- Different words will appear on the screen. Type them as fast as you can. If you type a word correctly, you will hear

“Good” and cursor will jump to the next word. The game continues until the total number of words reaches 100. The number of correctly entered words is shown in the upper right-hand corner.

- Press ESC key when SUM:100 appears in the upper-left corner. You might be asked to enter your name for records listing.
- Press ENTER.
- Select *Record Display* to see the best results.
- ♦ **Note:** By choosing the last option on the *Typing Game* menu you can turn the sound off or back on.

## Shooting Game

- Select *Shooting Game* on the *Game* menu.

- Choose a difficulty level to start a game.
- Move the gun by pressing . or . and shoot the targets by pressing ENTER.
- If you shoot the target, you will hear the sound “boom” and target disappears from the screen. The game continues until the total number of shot targets reaches 100. In the lower left-hand corner you see the number of successful shots.

- When you reach SUM:100, you will be asked to enter your name for records listing.
- Press ENTER.
- Select *Record Display* to see the best results.
- ◆ **Note:** By choosing the last option on the *Shooting Game* menu you can turn the sound off or back on.

## Master Mind

- Select *Master Mind* on the *Game* menu.

- Choose a difficulty level to start a game.  
By entering digits (and letters for expert level) try to guess a 4-digit number.
- Type a number and press ENTER.
- The number you have entered will appear in the table on the right-hand side of the screen. The "⊕" sign in the cells of the grid next to the number means that both the position and the digit (letter) are correct. The "O" sign means that only the digit (letter) is correct; its position is incorrect.
- Try to find the right answer using a minimum of tries. The program will evaluate you accordingly.
- Select *Record Display* to see the best results.

## Brick Game

- Press *Brick Game* on the *Game* menu.
- Select one of two games with the . key, the difficulty level with the . key. For the game 2, also choose the number of lines with the . key.
- Press ENTER.
- Using the keys ., ., ENTER, and ., position falling blocks to eliminate empty spaces at the bottom. Once a line is filled with bricks it will disappear from the screen.
- Your level, score, and game number will be shown on the screen.

<< Calculation >>

- A. Calculator
- B. Graphic Calculator
- C. Loan Calculator

## Calculator

- Press A for *Calculator*.
- Use this function as an ordinary pocket calculator to solve basic arithmetical problems, as well as for more complex mathematical and trigonometric computations and memory operations.

The keys are assigned values indicated in white above them.

## Graphic Calculator

- Press B on the *Calculation* menu to display the *Graphic Calculator* menu.

## Functions Input

- Select the option A.  $Y = F(X)$  on the *Graphic Calculator* menu.
- Specify one or two functions, each up to 40 characters in length.  
Use SHIFT to input from the keyboard symbols other than numbers.

Y1 (x) = x+2  
Y2 (x) = x<sup>2</sup>

- ◆ **Note:** If (T) is selected as a *Var express* value on the *Mode* menu, you can enter four T-functions up to 40 characters each. The first group of functions is X1 Y1, and the second group is X2 Y2.
- Press ENTER on the last line to save the values and return to the *Graphic Calculator* menu.

### Scope Input

- Select the option *B. Scope* on the *Graphic Calculator* menu.
- Change the default values if needed.  
*Xmin*, *Xmax*, *Ymin*, *Ymax* indicate the drawing limit. The extension of the X-coordinate is from *Xmin* to *Xmax*. The extension of the Y-coordinate is from *Ymin* to *Ymax*. *Xinc* and *Yinc* represent the scale of the X-axis and the Y-axis, respectively. *Xstep* is the drawing precision. It represents the Y-value per an *Xstep*.
- ◆ **Note:** If (T) is selected as a *Var express* value on the *Mode* menu (see below), then *Tmin*, *Tmax* define the variation limit. *Tstep* is the drawing precision. It represents an X-value and an Y-value per a *Tstep*.
- Press ENTER on the last line to save the values and return to the *Graphic Calculator* menu.

## Mode Setup

- Select the option *C. Mode* on the *Graphic Calculator* menu.  
To set a value in one of the four options, highlight it and press ENTER.
- Customize your graph using the drawing *Modes*:  
*Angle show*: with *Axle express* set to ARC\_AXLE, choose an angle measurement unit.  
*Var express*: select a way in which a function is defined.  
*Graph connect*: specify whether the graph dots are connected to form a solid line.  
*Axle express*: decide how coordinates are presented on the *Drawing Graph* screen.
- Press ESC to return to the *Graphic Calculator* menu.

## Drawing Graph

- Select the option *D. Drawing Graph* on the *Graphic Calculator* menu.

**<DRAW>**

**A. TRACE**

**B. ZOOM**

### *Trace*
