The latest speech technology employed by Partner[®] X5 allows you to listen to a clear, life-like pronunciation of English words and phrases.

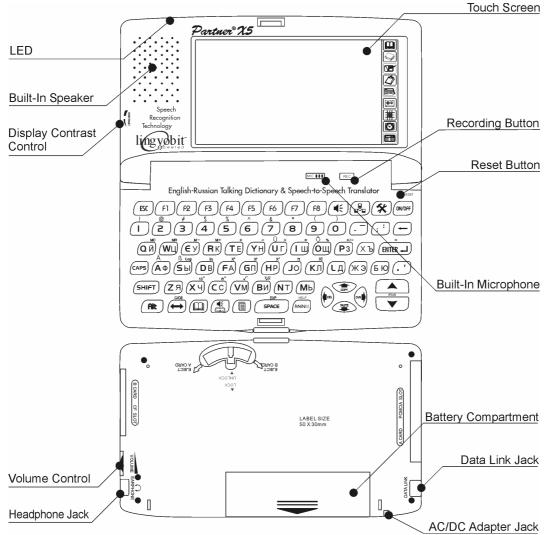

Unlike other portable electronic dictionaries, this model features a break-through combination of two parallel input devices – a well-designed 72-button keyboard and a high-resolution touch-sensitive display, which makes it functionally analogous to a mouse-equipped computer. Besides, an English voice input is possible in the Dictionaries section.

 Note: As continuous efforts are made by the manufacturer to ensure a better quality and performance of the Partner[®] products, some characteristics or the design of the actual device you purchased may slightly differ from their description in this manual.

The Partner[®] X5 gives you freedom of speech and peace of mind. Enjoy your Partner[®] X5 and make it your personal companion.

General View

The general view and external appliances of the Partner[®] X5 are shown below.

Power Supply

The Partner[®] X5 is powered by four AAA (LR03) batteries or by a special rechargeable pack. When the batteries or accumulators become weak, a warning message will be displayed. In order to prevent an excessive discharge of the batteries or accumulators and a resulting loss of data in RAM, the voice recording, talking function, and communication channel will be disabled at this time.

 Note: Electronic communication consumes considerable amount of energy. Try to always use an external power supply while connected with a PC.

To restore full functionality of the device and to avoid the risk of losing user data, replace the complete set of batteries or recharge the accumulators as soon as possible.

How to recharge the accumulators

- Make sure the accumulators are inserted in the battery compartment.
- Note: Only special accumulators rechargeable pack¹ may be used with your Partner[®] X5.
- Connect an AC/DC adaptor to your device.
- Note: The Partner[®] X5 is equipped with a jack for external power supply.
- Note: Use of an inappropriate external power supply may cause failure of the device and void the warranty. The AC/DC adapter should provide 9V and min 300mA DC current.²

The red LED shows that the accumulators are recharging and the green one shows that the accumulators are charged. The recharge LED will illuminate when the adaptor is connected.

• **Note:** Accumulators (if inserted in the device) are recharged every time you connect the adaptor to your device.

How to replace the batteries

- Press the (N/OFF) key to turn the device off.
- Note: Never try to remove the batteries from the device when the power is on. This can seriously damage the device. If you experience difficulty turning the device off, press the RESET

button on the right-hand side of the keyboard (above the 00/0000 button) and reinstall the system.

¹Please communicate with an Ectaco office to get more information about this special rechargeable pack purchase.

²Contact your dealer to order the compatible AC/DC adapter or call +1 (800) 710-7920 within the continental US or +7(812) 545-3838 in Russia.

- Remove the battery compartment cover by sliding it away from the device.
- Remove the used batteries and replace them with new ones.
- *Note:* Do not mix old and new batteries.
- Make sure to place the batteries according to the polarity markings (+ -) inside the compartment.
- Put back the battery compartment cover by sliding it toward the device. Make sure the cover sits in place properly.
- Turn the device on to make sure it works correctly.
- Note: You have 2 minutes to replace the batteries without risk of losing the data stored in RAM. Do not exceed the 2-minute limit! Neither the manufacturer nor the dealer may be held responsible for the loss of user data.

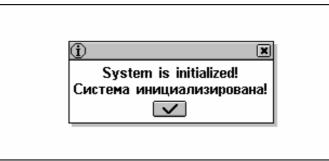

Initialization

The initialization routine is started

- when the Partner[®] X5 is turned on for the first time
- when you remove the batteries (e.g. when replacing them) for longer than 2 minutes
- after the system has been reset with the RESET button.
- Note: The RESET button is located on the right-hand side of the keyboard (over the ^{ON/OFF} button). It can be accessed with any thin object like a paper clip. Never use a needle or a pin since it can damage the device.
- If you see the *Initialize system*? message, press (ESC) or touch or to abort initialization and customization.
- If you confirm the prompt, the factory defined settings will be restored, but you can still prevent your data deletion by canceling

the ensuing prompt *Delete all user's data*? Press (ESC) or touch \square or \square to preserve your data.

The *System is initialized!* message signals that a system initialization has been accomplished, freeing memory and restoring the factory defined settings.

Also, the user may be prompted to conduct the touch-screen calibration, which configures the proper spacing and alignment of the touch-sensitive screen elements. Please refer to page 91 for the procedure description.

After a completed system initialization, or when using the device for the first time, the interface language will be reset to English. Users who prefer to see menus and messages in Russian are referred to page 89 for instructions.

Keyboard

The American standard QWERTY keyboard combined with the Russian and German layouts allows you to enter any word just in seconds.

Partner[®] X5 has standard and phonetic modes of entering Russian letters:

Russian standard mode allows you to enter Russian letters corresponding to the keyboard marks.

Russian phonetic mode allows you to enter Russian letters by their phonetic consonance with English letters, e.g. you can press the F button to enter the Russian letter " Φ ".

The table below shows the Russian and English layouts in the *Russian phonetic mode*³.

q	w	е	r	t	У	u	i	0	р	х/ъ
Я	ш	е	р	т	ы	у	И	0	П	Щ/Ъ
а	S	d	f	g	h	j	k	I	ж/э	б/ю
а	С	д	ф	Г	ч	й	к	л	ж/э	ь/ю
	z	X	С	V	b	n	m			
	3	x	Ц	В	б	н	м			

³ Press ALT to enter letters shown after the slash (/) in the table.

Each set of national characters is linked to its language input mode.

Language modes can be toggled by pressing the key. In the *English-Russian bidirectional dictionary* and *German-Russian bidirectional dictionary*, however, the input mode selection is made automatically to comply with the current source language, and the

key is used for changing the translation direction.

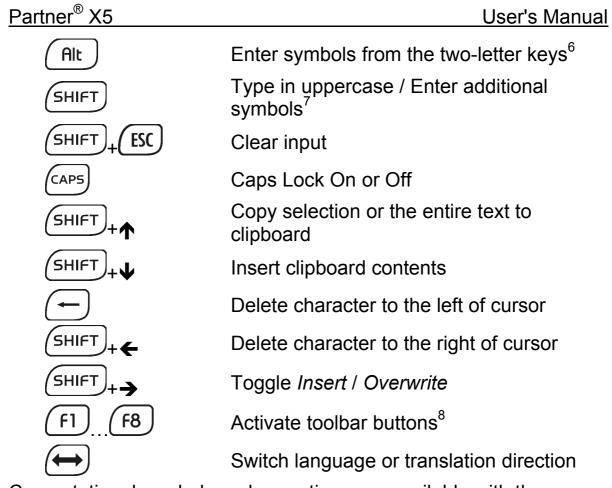

The function and control keys are described below.

⁵Only English words and phrases can be pronounced.

Computational symbols and operations are available with the *Calculator* options.

Display

The Partner[®] X5 features a large-size touch screen that provides a responsive and efficient windows-driven graphical interface for the device's numerous functions and applications.

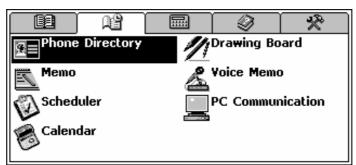

Touch-screen elements

By touching a screen item of a certain type – a push button or prehighlighted text – you perform an action associated with it.

⁶Use ALT to enter the lowercase Russian or German letters. To obtain the uppercase images of the letters on two-letter keys, press SHIFT or CAPS _ LOCK on the keyboard first.

⁷Marked over the keys.

⁸Commands and options associated with currently displayed *Toolbar* buttons are also accessible from the keyboard by pressing the F1-F8 keys with the corresponding number, counting buttons from top to bottom.

The keyboard equivalent of touching the highlighted item is moving the *highlight bar* to it with the arrow keys $(\leftarrow, \rightarrow, \lor, \checkmark, \uparrow)$ and pressing (ENTER \downarrow)

Both the touch screen and the keyboard procedures of activating an option or a command are referred to as *selecting* in this manual.

Stylus

Touching is preferably done with the supplied pointing device called the *stylus*, which, when not in use, can be conveniently kept in a special slot at the base of the device's case lid.

The stylus is especially useful for operations that cannot be performed from the keyboard, for example, highlighting an arbitrary text fragment in the Organizer sections or a multi-word translation in a dictionary entry.

Note: If, for some reason, using the stylus does not provide the desired effect, use (MENU), (ENTER →) and the arrow keys (←,→,↓,↑) to access the *Touch Screen Calibration* procedure (see page 91).

MAIN MENU

The MAIN MENU appears as a row of tabs on the top of the screen when the device is turned on (unless the *Resume Screen* setup option has been selected, see page 90) or an application is closed,

or the $(M \in N \cup J)$ key is pressed.

The MAIN MENU is divided into five submenus, each of which includes a number of related *sections*.

Sections may also include *subsections* and various lower level *options*.

The five parts of the MAIN MENU are:

R
*

DICTIONARY ORGANIZER CALCULATIONS REFERENCE SETUP

Opening a Submenu

The easiest way to open a specific submenu when the MAIN MENU is displayed is by touching its corresponding tab at the top of the screen.

Alternatively, the submenus can be chosen by pressing the $(\overset{M \in N \cup}{}$ key or one of the paging \clubsuit , \checkmark keys on the keyboard.

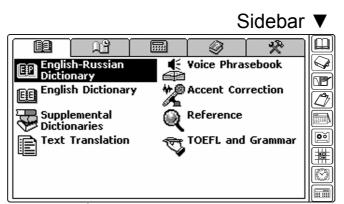

Opening a Section

To open a section in the Partner[®] X5, display the appropriate part of the MAIN MENU and do one of the following:

- touch the section name
- move the highlight bar to the section name and press
- press the numeric key corresponding to the section number.

Partner[®] X5

Sidebar

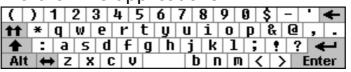

Nine sections of Partner[®] X5 have permanent touch-sensitive shortcut buttons on the *Sidebar* to the right of the screen:

Main Dictionary	Voice Memo
English Dictionary	Game Center
Phone Directory	Local Time (Pop-Up Window and Talking
Scheduler	Clock)
Calendar	Calculator

Touchpad

The touchpad is a set of virtual keys displayed on the screen that simulates the conventional physical keyboard or part of it. The combination touchpad shown below is the most widely used throughout the Partner[®] X5 applications.

The basic touchpad layout contains the letters of the respective alphabet and a set of symbols. The control key images have the following meaning:

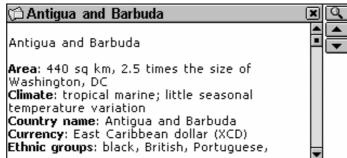

Touch keyMeaningKeyboard equivalentImage: ShiftBackspaceImage: ShiftImage: ShiftShiftImage: Shift

Touching the keyboard button in the lower-right corner of the screen or pressing F8 on the keyboard hides the touchpad, thus enlarging the input visible area. To re-display the touchpad, touch or press F8 again.

Windows

Every application, pop-up menu, or dialog box used in the Partner[®] X5 appears in its own *window*.

A window is displayed as a framed screen area with two main elements: the *Title Bar* and the *Close Button*.

The Title Bar may show the name of the currently active section or a

message title. Any window can be closed either by pressing $\underbrace{\text{ESC}}_{\text{on the physical keyboard or by touching the Close Button }}$ in the upper-right corner of the window.

Also present in a window might be the *Vertical* or *Horizontal Scroll Bars*. The *Scroll Box* shows the position of the displayed portion relative to the rest of the relevant information.

On a Scroll Bar:

- touch a *Scroll Arrow* riangler or riangler to advance or go back one line
- touch and drag the *Scroll Box* to browse
- touch the *Scroll Bar* below or above the *Scroll Box* to jump to that portion of text.

Pop-Up and Pull-Down Menus

A *pop-up menu* is an overlapping window that requests the user's selection of one of the displayed options.

Dialog Box

A simple example of a dialog box is a *prompt*, which contains a *Yes/No* question pending the user's confirmation or cancellation.

🖉 Scheduler: 08-06-2002

Ways you can respond to a prompt:

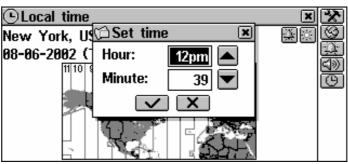

A *Setup* prompt expects the user to specify data items directly in the dialog box. This can imply either checking boxes or setting values.

Checking boxes

- To check an empty box touch it or move the dotted frame to the desired item with the arrow keys and press on the keyboard. A checked box appears solid:
- Touch or press (ENTER) to apply the changes and close the window.

Setting Values

- To change a value in the highlighted box, touch the , ▲ buttons or press the ↑, ↓ keys.
- To change the active box, touch it or use the \leftarrow , \rightarrow keys.
- Touch or press (ENTER) to save settings and close the window.

Message Box

A message just requests the acknowledgement of information.

• To close the message box, touch \blacksquare or \checkmark where available.

The Partner[®] X5 does not allow the moving or switching of active windows. Thus, you will have to close an overlapping window in order to proceed.

Toolbar

A *Toolbar* is a set of vertically arranged push buttons appearing to the right of the pertaining window.

As an on-board help to the user, a short *Toolbar* button description (*Tool tip*) appears when a button is being touched.

Commands and options associated with currently displayed *Toolbar* buttons are also accessible from the keyboard by pressing the F1-F8 keys with the corresponding number, counting the buttons from top to bottom.

DICTIONARY

The most important part of the Partner[®] X5 is the DICTIONARY section – it encompasses eight language-related sections.

• Select the Lie tab from the MAIN MENU to open the DICTIONARY section.

MAIN DICTIONARY

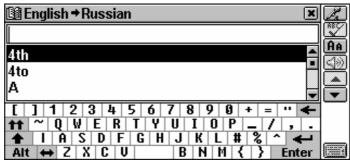

The Partner[®] X5 contains the most advanced English-Russian and Russian-English electronic dictionaries available on the market. This Manual usually refers to those as the *English-Russian Dictionary*, or simply the *Main Dictionary*.

 Note: Besides general vocabulary and terminology the Main Dictionary contains slang. You can hide it using the Adult Lock function (see page 91).

General Dictionary Function

Select English-Russian Dictionary from the DICTIONARY

section, or touch on the *Sidebar*, or press the key on the keyboard.

During the initialization of the *Main Dictionary* you may see the icon. This usually means that *User's Dictionary* contains considerable number of entries. Since both dictionaries are interlinked, the more words the *User's Dictionary* contains, the more time it takes to initialize the *Main Dictionary*. Please wait while the loading completes.

• **Note:** Please refer to the *How to use the Dictionaries* (see page 20).

DICTIONARY OF THE ENGLISH LANGUAGE

The Partner[®] X5 includes the advanced English explanatory electronic dictionary.

General Dictionary Function

• Select *English Dictionary* from the DICTIONARY section.

HOW TO USE THE DICTIONARIES

Advanced Word Recognition

• To translate or explain a word, start entering it from the keyboard or the touchpad.

While you are typing, headwords closest in spelling to the portion you entered so far are displayed in the *Advanced Search Area* under the input line.

• If the desired word had appeared before you finished typing, select it (touch the corresponding line or make sure it is

highlighted and press $(\underline{ENTER} \rightarrow)$ to see its translation(s) or explanation(s).

- Scroll or page through the *Advanced Search Area* to manually find the word in question.
- To enlarge the visible *Search Area*, hide the touchpad by touching .

Partner[®] X5

Voice Input

The *Voice Input* is a new exclusive function which enables voice input of English words.

• To translate or explain an English word, touch 🗷 and spell the desired word.

The word will be recorded, automatically recognized, and the list of headwords (and first translations if in the *English-Russian Dictionary*) closest in spelling will appear.

• Touch the desired word or highlight it and press (ENTER -) to see its translation(s) or explanation(s).

Parts of Speech and Gender Labels

Translations or explanations of a headword are listed in the alphabetical order of parts of speech.

A – adjective	NPR – proper noun
ABBR – abbreviation	NUM – numeral
ADV – adverb	PART – particle
ART – article	PHR – phrase
AUX – auxiliary	PREF – prefix
CONJ – conjunction	PREP – preposition
ID – idiom	PRON – pronoun
INTRJ – interjection	SUFF – suffix
N – noun	V – verb

Russian and German nouns are marked with gender and number labels.

F – feminine	MN – masculine or neuter
FN – feminine or neuter	MPL – masculine plural
FPL – feminine plural	N – neuter
M – masculine	NPL – neuter plural
MF – masculine or feminine	PL – plural
MEPI – masculine or feminine	nlural

MFPL – masculine or feminine plural

Viewing Entries

Suppose you want to translate the English word CASE into Russian.

- Enter CASE in the input line.
- Note: The Dictionary search is not case-sensitive, so you can type in any case you want.
- ◆ Note: It is possible to retrieve a translation or explanation for word forms entered in the input line. The source word entry for the desired word will be displayed. For example, if you enter "doors" and there is not such an entry in the dictionary, you will get the "door" entry as it is a headword for "doors." The MorphoFinder™ function helps you find source words (headwords) for English past participles, gerunds, plural forms and for Russian adjective forms.

Spell-checker Vector Ultima™

The multilingual spell-checker Vector Ultima[™] is one of the most advanced on the market. When you are unsure of the spelling of a word, the Vector Ultima[™] allows you to enter the word as you hear it and choose a spelling version from a list of suggestions.

- Type the word BOAR<u>D as you hear it: BORD.</u>
- Touch I or press (SHIFT) + either of the ▲, ▼ keys. A list of suggested variants appears on the screen.

- Select the word BOARD to see its translations.
- **Note**: If the spell-checker is unable to suggest alternative words, the *No variants* message is shown.

Instant Reverse Translation and Instant Explanation

For your convenience, the Partner[®] X5 provides an *Instant Reverse Translation* and *Instant Explanation* for all words and expressions in the *Dictionaries*.

- For example, display the entry for the word SPIN.
- To highlight a word among the explanations or translations
 - touch it with the stylus, or
 - move the highlight bar to it with the \rightarrow key. For example:

Note: It is possible to retrieve a reverse translation or explanation for word forms highlighted within the translation or explanation of the entry. The source word entry for the highlighted word will be displayed. For example, if you highlight "distributed" you will get "distribute" as there is no translation or explanation for "distributed" because it is a form of "distribute." The MorphoFinder™ function helps you find source words for English past participles, gerunds, plural forms and for Russian forms of various parts of speech. If the message "Not found!" is displayed, try to find the word in the dictionary by typing the desired word in its basic form.

You can make up to 4 reverse translations and explanations in succession (without closing windows). The message *Last translation* is displayed if the limit is reached.

• To close the *Reverse Translation* or *Instant Explanation* windows in the reverse order, touch x or press ESC.

Pronunciation of Words and Sentences

One of the most exciting features of the Partner[®] X5 is the TTS (Text-To-Speech) technology which allows the pronunciation of English words and phrases.

• Display an entry, for example:

VOICE PHRASEBOOK

Take the Partner[®] X5 with you going abroad. The *Voice Phrasebook* substitutes for a Russian or English interpreter in standard situations such as registering at a hotel, shopping, visiting bank etc. You simply choose the appropriate phrase from the book or say it in English or Russian and the Partner[®] X5 will pronounce it for you in English, Russian or German.

For easy reference the phrases are arranged by topics:

Everyday Conversation Traveling Local transport Hotel Restaurant Shopping Bank Health Housekeeper

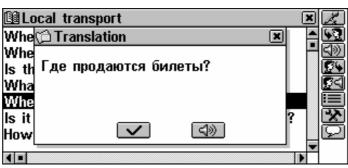

• Select *Voice Phrasebook* from the DICTIONARY section. You will see a list of topics displayed in the English or Russian language depending on the *Interface Language* setting. For example:

🖼 Voice Phrasebook	×	Z.
Everyday Conversation	-	
Traveling	-	X
Local transport		Q
Hotel		
Restaurant		
Shopping		
Bank		
Health	-	

- Press II to set Source language.
- To open a topic:

highlight it with Ψ , \uparrow and press (ENTER \downarrow), or

- touch and or press the REC key. Say the name of the topic. The highlighting will be moved to the one selected for a second and then the topic will be opened.
- Touch **Source** language and **Source** language.
- To find a phrase, touch 2 or press the REC key and say the desired phrase. It will be recorded, automatically recognized, and highlighted. The translation will be pronounced (if this option is set, see page 38).
- Note: You can say not only a phrase from the list, but its equivalents, too. You can find the list of equivalents available for recognition at www.ectaco.com

If the highlighting does not move to another position or a wrong phrase is displayed, this means that the phrase was either not recognized, recognized unsuccessfully or there is not such a phrase in this topic.

For successful recognition it is necessary to take into account the following recommendations:

1. Ensure there is silence at the time of use.

2. Choose the optimum distance from the built-in microphone within a range of 3 - 6 inches (8 - 15 cm), in view of your usual loudness of pronunciation.

3. Try to say phrases distinctly and plainly yet not in clipped syllables.

4. Avoid carelessness in pronunciation (smacking of lips, loudly inhaling or exhaling, mumbling, interruptions, repetitions, etc.).

5. Try to adjust the microphone level according to loudness of your voice. Touch the **Solution**. Highlight the *Mic volume* checkbox and change the value using number buttons.

Use:

- Ψ , \uparrow to move the highlight bar
- • , to page up and down
- If the REC key to make a voice input
- 🖵 to learn more about correct pronunciation and recording a phrase____
- Image for the listen to the pronunciation of the selected phrase
- Is to hear the pronunciation of the translation

- Ell to set or cancel the *Pronounce translation, Hint, Auto playback* options⁹
- to set internal speaker ON or OFF and to adjust the microphone level.
- Note: If you hear no sound, make sure the internal speaker is ON (it can be turned off by the program).

ACCENT CORRECTION

The *Accent Correction* is an excellent tool that helps you improve your English articulation skills.

The section contains over 1,100 commonly useful phrases.

For easy reference they are divided into conversational topics:

Everyday conversation	Shopping
Traveling	Bank
Local transport	Health
Hotel	Housekeeper

Restaurant

Phonetic exercises make the basis for improving your pronunciation, thus making it closer to the sample pronunciation of an Americanspeaking person. Sample phrases are recorded by the American speaker, processed and stored in the memory of your Partner[®] X5. The phrases you pronounce are entered via the built-in microphone, processed, and then compared to the sample. In the comparison stage, a unique speech recognition technology is used to determine which phrase was spoken. On the basis of this comparison the degree of the closeness of your pronunciation to the model is assessed.

• Select Accent Correction from the DICTIONARY section.

⁹ To check or uncheck option touch the desired one with stylus or select it with ♥, ↑ and press the SPACE key.

• Touch I or the REC key to make a voice input.

First you will listen to a phrase recorded by the American speaker (if this function is enabled).

 Position yourself near the built-in microphone at a distance of 3 – 6 inches (8 – 15 cm) and say the phrase.

The phrase you said will be recorded, automatically recognized and compared to the model pronunciation. The results of the comparison are given as *Excellent*, *Good*, *Poor*, *Wrong* or *Please try again*. The *Please try again* result means that it is necessary to repeat the phrase louder or to lower extraneous noises.

- **Note:** The quality of voice recognition strongly depends on the level of external noise. Try to ensure silence in the room where you practice pronunciation.
- If you want to listen to a model pronunciation of a phrase before you make a voice input, touch is and make sure the *First listen to the phrase* option is selected.

• If you want to listen to the phrase you said before the result appeared, touch 💷 and check the *Auto playback* option¹⁰.

For successful practice, it is necessary to take into account the following recommendations:

1. Ensure silence at the time of use.

2. Choose the optimum distance from the built-in microphone within a range of 3 - 6 inches (8 - 15 cm), in view of your habitual loudness of pronunciation.

3. Do not say extraneous words or phrases into the microphone.

4. Try to say phrases distinctly and plainly yet not in clipped syllables.

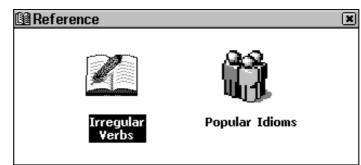

5. Avoid carelessness in pronunciation (smacking of lips, loudly inhaling or exhaling, mumbling, interruptions, repetitions, etc.).

TOEFL AND GRAMMAR

The Partner[®] X5 contains a practical preparation guide for the *Test* of *English as a Foreign Language* (TOEFL), which is required of non-native English speakers as part of the admission procedure to an American college. This section offers you a unique opportunity to practice the computerized test version, as it is likely to be presented to you at a real examination.

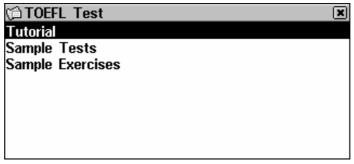

Another useful function of the Partner[®] X5 is the *English Grammar for non-English Speakers*.

• Select TOEFL & Grammar from the DICTIONARY section.

The *Tutorial* provides you with general information about the requirements, structure, and duration of a TOEFL test. The *Tutorial* text is available in English.

• Select *Tutorial*.

Tutorial This is the study aid to help you in preparing for the TOEFL test. Actual tests are provided to help you practice all of the different sections of the TOEFL test. The goal of TOEFL (Test of English as a Foreign Language) is to measure the English proficiency of the students whose native language is not English. The exam is divided into three multiple-

- To read *Tutorial,* use:
 - \blacksquare , \blacksquare or Ψ , \uparrow for scrolling by line
 - • , for paging.

After you become acquainted with the *TOEFL* basics set forth in the *Tutorial*, you might feel prepared to practice in answering some questions. For your convenience, sample questions are arranged in two sequences, represented by *Sample Tests* and *Sample Exercises*.

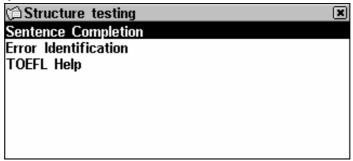

Sample Tests and Sample Exercises

• Select the *Sample Tests* option from the *TOEFL* menu to open its submenu, which includes four test options.

Each test contains Multiple Choice questions pertaining to all three parts of the TOEFL test in this order: *Listening Comprehension, Structure and Grammar, Reading Comprehension.*

• Select the *Sample Exercises* option to open its submenu, which includes three options corresponding to the parts of TOEFL.

The *Sample Exercises* option allows you to practice each of the three parts of the TOEFL test separately. The main parts are further subdivided into two or three topics comprised of questions of the same type. For example, the topics of *Structure and Grammar* are *Sentence Completion* and *Error Identification*:

• By selecting the auxiliary *TOEFL Help* option you can obtain detailed directions for the types of exercises included in the current menu.

Regardless of the practice form you have chosen, each sample question is structured as follows:

SCHEDULER

You may effectively manage your time by using the *Scheduler* section of your Partner[®] X5. You may enter records in English or Russian, as well as edit, search and delete them.

- Select *Scheduler* from the ORGANIZER section to display a list of *Scheduler* entries specified for the current date (default).
- Use Is to switch between viewing *all* and *current date* records.

Creating a Record

• Touch D to open a new record template.

🐼 Scheduler: 08-07-2002 🛛 💌	
🖹 Event: Task	
🛅 Date: 08-07-2002 We	
發 Time: 11: 17am	
漢 Reminder: none	
↔ Recurrence: none	

• **Note:** A new Scheduler record can also be opened from *Calendar*.

The first page of a *Scheduler* record includes information on *Event, Date*, *Time*, audible *Reminder* and *Recurrence* settings, which can be changed via setup dialog boxes.

Event

- To choose between *Task, Call, Meeting* or *Anniversary Date,* touch the caption or the icon on the left.
- *Note:* The *Task* heading defaults to a new record.

Date

The current date is the default setting in a new record.

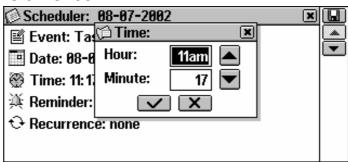

- To display the *Date* setup dialog box:
 - touch the date value, or
 - touch the date icon.

Time

The current time is the default setting in a new record.

- To display the *Time* setup dialog box:
 - touch the time value, or
 - touch the time icon.

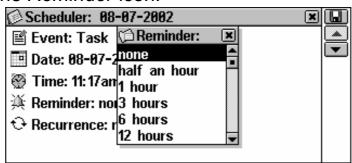

To set the desired *Hour* and *Minute*, touch , or press the number buttons. Use , to move between fields.

Reminder

Reminder specifies the time period until the *Time* when a reminder alarm will be issued.

- To display the *Reminder* setup box:
 - touch the *Reminder* value (the *none* setting defaults for a new record), or
 - touch the *Reminder* icon.

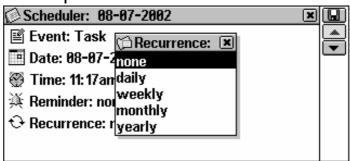

• Choose one of the available options.

Recurrence

If you need your *Reminder* to operate on a recurrent basis you should select one of the daily, weekly, monthly, or yearly recurrence intervals. *None* is the default setting for a new record.

• Touch the *Recurrence* icon or its value and choose one of the options in the setup box:

- Note: With a Scheduler record made at the turn of the month and a Monthly recurrence interval set, the Reminder alarm will be issued on the last day of the month if the month in question has fewer days than the one in which the setting was initiated. For example, if the record was created on January, 31, the Reminder will be issued on February, 28 or 29.
- Note: The recurrence interval setting does not mean a record will be duplicated in the Scheduler and Calendar. For example, if you created a record dated Dec-01, 2002 and set recurrence interval

daily, this record will not appear in Dec-02, Dec-03 etc. lists. Instead, the *Reminder* will sound at the set time and the initial record of Dec-01, 2002 will be displayed.

- **Note:** If one-time and recurrent events coincide with each other on the same date and at the same time, then *Reminder* will only display the one-time event since it has higher priority.
- Touch or press to open the next page.
- Type in the *Description* contents. To return to the previous page, touch or press .
- To save a record, touch **I**.

Finding a Record

There are three ways to search for records.

Select From List

• Open the record list for the current date ordered by *Time*.

Contents Search

- Select screen.
- Specify any adjacent string that might be found in the contents page of a Scheduler record or records, and touch or press
 ENTER I to see results in a Search result list.
- Select an entry to open the associated record in the viewing mode.

Search through Calendar

- Select *Calendar* from the ORGANIZER section.
- To open the *Scheduler* list referring to the desired date, highlight a date for which a *Scheduler* records exists (these dates will

```
appear in bold) and press (ENTER ).
```

Schedule Alarm and Reminder

The Schedule Alarm can be turned on or off in the System Setup section. This setting affects the entire Scheduler section: if turned on, which is the default setting, the Schedule Alarm sounds on the Date and at the Time of any Scheduler record, producing an audible beep.

The *Reminder* time is adjusted separately for every individual record.

• Press any key or touch the screen to interrupt a *Schedule Alarm* or a *Reminder* beep (otherwise, the beep will continue for 30 seconds). The corresponding *Scheduler* record will be displayed in the viewing mode.

You can change the record - for example, set the *Reminder* for a later time. Closing *Scheduler* will bring you back to where you were before the alarm went off.

CALENDAR

This section provides you with a convenient *Calendar* for 1900-2099. It also allows you to make new records or select existing *Scheduler* records.

• Select *Calendar* from the ORGANIZER section to open it on the current month with the current date framed.

DRAWING BOARD

You can create simple drawings and outline images in the *Drawing Board* of your Partner[®] X5.

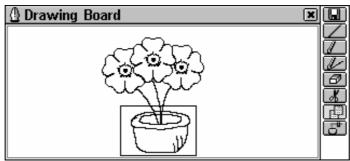

• Select *Drawing Board* from the ORGANIZER section.

Creating a Drawing

- Touch 🛄 to open a new drawing template.
- Start creating a free-hand drawing with the stylus. The default settings are: *Thin line*, *Free draw*.

- To draw using a *Thick line*, touch *I*. The button changes to *I*. Touch this new icon to restore the *Thin line*.
- To draw a *Straight line*, touch *L*. Touch *L* to return to using *Free draw*.
- To use the stylus as an eraser, touch 🖾. Touch 🖉 or 🖉 to resume drawing.
- To copy or cut a rectangular drawing fragment touch 🖽 (*Copy*) or 🚜 (*Cut*), respectively.
- Touch the drawing board next to the fragment you wish to copy and drag the stylus so that the fragment is included within a frame.

• Take the stylus off the screen.

A framed drawing fragment is copied to the clipboard. The frame (and its content, if the cut option was used) disappears.

• To paste the clipboard contents into the drawing, touch (*Paste*).

- Touch the drawing board to display a frame with the clipboard content, and then position it properly by dragging it by the upper-left corner.
- Take the stylus off the screen.

A drawing fragment previously copied or cut to the clipboard will be pasted into the drawing. The frame will disappear.

- To cancel the lookup or delete extra characters in the lookup box, press the key.
- To open the selection, press (ENTER -) or touch the highlighted area with the stylus.

VOICE MEMO

Your Partner[®] X5 can be readily used as an effective and easy-tohandle voice-recording device. It can save up to 8 minutes of voice memos.

See *General View*, page 5, for the location of the recording button and the microphone.

• Select *Voice Memo* from the ORGANIZER section. A list of existing records arranged in alphabetical order appears.

Creating a Record

There are two ways to create and store a voice record.

From Voice Memo Section

• Touch • or press the REC key to start recording.

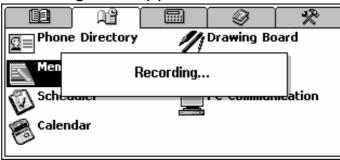

- Press any key or touch the screen to stop recording.
- Enter a filename for your *Voice Memo* up to 8 characters in length.

• Touch solution or press (ENTER) to return to the *Memo* list. If no filename was specified, the record will be given the default *NoName*.

Quick Recording

• In any section except *Voice Memo, Voice Phrasebook* and *Accent Correction*¹², press and hold the REC key. The *Recording…* message will appear on the screen.

• Release the key to stop recording. The record will be given the default name *NoName*, which you can change in the *Voice Memo* section.

PC COMMUNICATION

Using the Partner's *PC-Link* cable (available separately as part of *Communication Pack*) and the *PC-Link* software (included in the package on a CD-ROM) you may exchange data between your Partner[®] X5 and a personal computer. This feature will allow you to keep a backup copy of the *Telephones, Scheduler, Memo*, and *User's Dictionary* data on your PC.

Software

- Insert the supplied CD into the CD-ROM drive of a PC. If the installation program did not start automatically, run the *Install.exe* file from the CD root catalog.
- Choose to install *PC-Link*.
- When the program is installed, start it from the *Start* menu, *Programs/Ectaco*. In the right lower corner of the *System Tray,* the *icon* will appear.
- *Note:* Make sure you selected an appropriate COM port and set the same baud rate.
- Note: The latest version of the PC-Link program and additional dictionaries can be downloaded from Ectaco's Web site www.ectaco.com

Data Transfer

- Connect the *PC-Link* cable to the *Data Link* jack located on the right-hand edge of the device.
- Select *PC Communication* from the ORGANIZER section, or press on the keyboard.
- Choose a data transfer mode (*PC Synchronization, Upload* or *Download*)._____

- Right-click your mouse on the *PC-Link* icon in the right lower corner of the *System Tray*. In the *PC-Link* program, select a complementing data transfer mode. To *Download*, also choose the section(s) to send.
- Start data transfer first on the receiving device, then on the sending one.

You may enter, edit, or delete data within your Partner's PC-Link program.

- **Note:** Time span between data transfer startup on the PC and in the device must not exceed 30 sec. Otherwise, the *Time out!* message will be displayed.
- Note: The PC Synchronization option presents an alternative to having to conduct time-consuming full data backups of Phone Directory, Memo and Schedule, overwriting previous versions on the receiving device. It makes sure both the Partner[®] and PC have the latest updated version of records. Only changes are transferred.
- Note: In Download mode your newly transferred data will replace all the information you had saved in the corresponding section of your Partner[®] X5.
- **Note:** Always back up your important data! Neither the manufacturer nor the dealers assume any responsibility for lost or corrupted data.
- **Note:** Data Transfer consumes a considerable amount of energy. Using an external power supply is strongly advised.

SETUP

Personalize your Partner[®] X5 and ensure good upkeep of your personal records with the options of the SETUP section.

• Select the tab from the MAIN MENU to open the SETUP section.

INTERFACE LANGUAGE

The default interface language of the Partner[®] X5 is English.

• Select Interface Language from the SETUP section.

• To select the desired language, touch it with the stylus or use the Ψ, \uparrow keys and press (ENTER - I).

All messages will now appear in this language. You may always switch back.

• *Note:* Some reference data is only available in English.

SYSTEM SETUP

For best results and to ensure that you can fully employ all of the Partner's diverse features, it is recommended that you thoroughly familiarize yourself with the options of the *System Setup* section, which will allow you to adjust the device configuration to better suit your needs.

• Select *System Setup* from the SETUP section.

🛠 System Setup	×

Touch Screen Calibration	
Adult Lock	
Speech Level	
Audio Settings	
Scheduler Alarm	-

Key Tone

This feature is designed to produce a short beep every time you press a key on the Partner's keyboard. The key tone is enabled by system default.

- Select *Key Tone* from the *System Setup* menu to display a setup prompt.
- To highlight the box next to the desired option, touch it or press an arrow key.
- To save the setting and return to the *System Setup* menu, touch or press ENTER -1.

First Screen

Use this section to specify what will appear on the screen when you turn on your Partner[®] X5: the *Main Menu* (default) or whatever was displayed the last time the power was turned off (*Resume screen* option).

- Select *First Screen* from the *System Setup* menu to display a setup prompt.
- To highlight the box next to the desired option, touch it or press an arrow key.
- Touch or press (ENTER) to save the setting and return to the System Setup menu.

Auto Shutoff Period

The automatic turnoff has a preset delay of 3 minutes. This feature saves battery life and prevents accidental display damage by shutting the device down after the specified period of inactivity. The adjustable range is from 1 to 15 minutes.

- Select *Auto Shutoff* from the *System Setup* menu to display a setup prompt.
- Touch ▲, ▶ or press ←, → to adjust the Auto Shutoff period in 2 minute increments, or touch the chart bar to change it instantly.
- Touch or press (ENTER) to save the setting and return to the System Setup menu.

Touch Screen Calibration

To restore proper touch screen functionality, or as part of an initialization procedure, the screen might have to be recalibrated manually.

- Note: If, for some reason, the touch-sensitive control fails, use the M∈NU, ENTER →, and arrow keys to access the Touch Screen Calibration setup screen.
- Select *Touch Screen Calibration* from the *System Setup* menu to display a setup window showing a target image in the upper left-hand corner.

- Touch the target center with the stylus. Repeat the process with three more targets, which will appear one after another.
- If the calibration was successful, a confirmation message will be shown and the setup window will close. If the *Mismatch!* message appears, you will have to repeat the procedure.

Adult Lock

In this subsection you can hide slang words or phrases contained in the dictionaries. For example, you may forbid your children access to slang using this feature. *Adult Lock* is *ON* by default.

- Select *Adult Lock* from the *System Setup* menu to display a setup prompt.
- To highlight the box next to the desired option, touch it or press an arrow key.
- If the OFF option was chosen, enter the *showslan* password and press ENTER .
