Secondary Search

Explanation Screen

Multi-Layered Search

Other Data Search

① Smart Input Search

Just input the first one or several letters, you can find the desired words or phrases.

There are 3 kinds of methods:

- a. Input the first or first several letters of a word.
- b. Press Numeric key to select the corresponding word or character.
- c. Press the Up/Down key to move the cursor and select the desired word, and then press [ENTER] to confirm.

② Cross Search

When the current dictionary does not contain the word or character you want to look up, the device will transfer to other dictionaries. If the word or character is available in other dictionaries, it will display the explanation.

Notes:

If the corresponding Extension Dictionary of a certain dictionary has been downloaded, the device will search for words in the Extension Dictionary first, and then others.

③ Wildcard Search (Only Available for English)

To look up a word that you are not sure of spelling, input all the letters you know, and then replace the unknown letters with “?” or “*”.

④ Secondary Search

If the word you input is not found, please check your spelling, or that this words is not covered in this dictionary. The device will provide 2 kinds of searching methods and 1 recording method:

- Spelling Check -- displays the list of words similar in spelling.
- The Nearest Word -- displays the nearest word in order.

⑤ Multi-layered Search

Multi-layered Search led you cross search the unfamiliar words or phrases. The number of the layer will be displayed at the top right corner. On the explanation screen, highlight the word(s) to be looked up.

Steps:

- Press the Right key to locate the cursor. Move the cursor to the word.
- Press [ENTER] to search or press [F1], [F2], [F5] to search in the corresponding dictionaries.
- Press [ESC] to return to the previous screen.

⑥ Related Data Search

When the corresponding icon appears, press it to look up the related example sentences, phrases, grammar and other information such as synonyms and antonyms.

Multimedia Player

Provides MP3 player tools.

PIM Function

Provides convenient notes function, make your personal information management easily.

Faster File Transfer

Support USB 2.0 jack.

1. Keep it dry. Precipitation, humidity and liquid that contains minerals will corrode electronic circuits.
2. Do not use or store it in dusty, dirty areas as its detachable parts may be damaged.
3. Do not store it in hot areas. High temperatures can shorten the life of electronic devices, damage batteries, and melt certain plastics.
4. Do not store it in cold areas. When the device warms up, moisture can form inside it, which may damage electronic circuit boards.
5. Do not attempt to take the device apart. Improper handling may damage the device.
6. Do not drop, knock or shake it. Improper handling may cause damage to the liquid crystal panel.
7. Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device.
8. Do not paint it. Paint can clog the device's detachable parts and cause it to malfunction.
9. Do not operate the device below the temperature 0 or over 40 degrees. Excessive heat or cold will cause malfunction and incur damage to the device. To avoid such from happening, please do not use the device for two hours after it has been exposed to excess heat or cold, because the humidity or moisture formed by the temperature changing will cause damage to the device.
