 - * Press numeric key [1] to check the correct answer. (10 points will be deducted)
 - * Press numeric key [2] to listen to the correct answer in English. (7 points will be deducted)
 - * Press numeric key [3] to obtain the definitions of the highlighted word. (2 points will be deducted)

60

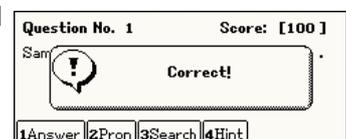

Ex. Select level 2

Rearrange the words in the sentence into correct order.

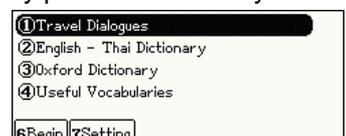

Highlight the selected word and press  to compose sentence.

Press [ESC] to exit.

2. Listening and Learning

Press  /  or directly press numeric key 1-5 to choose the category.

62

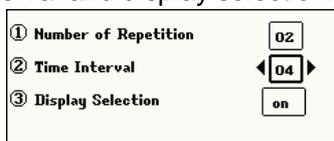

Note:

For Item 2-5, you should have saved some words in English-Thai Dictionary, Oxford English Dictionary, Useful Vocabularies and Travel Dialogue (saved), otherwise a message "No Data" will be displayed.

- A. Press numeric key [6] to start the practice.
- B. The contents of words or dialogues will be displayed and pronounced one by one automatically.
- C. Press [ESC] to stop and exit from the function.
- D. Press numeric key [7] to set number of repetition, time interval and display selection.

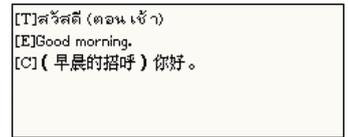

Settings:

You can press ▲ / ▼, or press [SHIFT], then press [THAI/ENG] to select

item, then press ◀ / ▶ to adjust.

Practising Screen

3. TOEFL Exam Exercises

Press the corresponding numeric key 1-4 or press ▲ / ▼ to select a category.

Initial screen:

Press [ENTER] to access the setting screen.

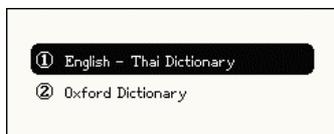

Press ◀ / ▶ to select a group number.

Note:

For the operation of other functions, please refer to "4.Revision Dictionary".

4. Revision Dictionary

You should have saved some words in English-Thai and Oxford Dictionaries firstly, otherwise a message "No Data" will be displayed.

- A. Press the corresponding numeric key or to choose a category.

- B. Maximum 20 words in a group, if there are more than one group of words, you can select ◀ 01 ▶ to adjust the starting group number.

4.1 Learning

- A. Press numeric key [1] to start viewing the definitions of the word.
- B. Press ▲ / ▼ to view definitions on the screen line by line.
- C. Press ▲ / ▼ to view the previous/next word and its definition.

4.2 Review & Test

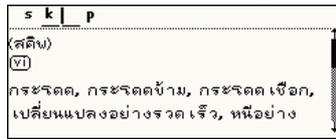

- A. Press numeric key [2] to start.
- B. Press letter key [Y] or [ENTER] to start.

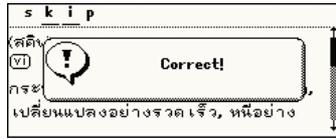

- C. Press ▼ to learn the following word unit a message "Start" appears.

D. Type English letters to fill in the blank and form the complete word.

E. Press **ENTER** to confirm.

Note:

If your answer is wrong, a message “Wrong!” and the correct answer will be displayed. You can highlight English/Thai words and cross search in the dictionaries.

4.3 Recalling

Press numeric key [3] to start.

highlight English/Thai words and cross search in the dictionaries.

5. Proverbs

It provides two kinds of proverbs: English and Thai proverbs.

A. Type the first or the first few letters of the

proverb, a list of proverbs will be displayed for you to select.

B. Press **▲** / **▼** to highlight the proverb, press **ENTER** to access its definition screen.

- * Press **▲** / **▼** to view the definition of previous/next proverb.
- * Press [ESC] to return to the index screen.

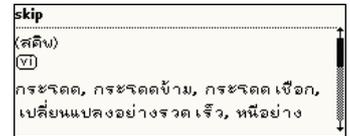

C. When displaying explanations, press **▲** /

When the word appears, press

ENTER to show the definition. Press

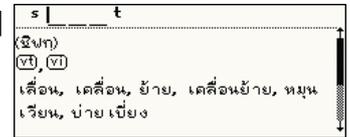

ENTER again or press

▲ / **▼** to show the previous/next word.

4.4 Practice

Press numeric key [4] to start.

The first and the last letters of the word appears, but other letters are blank. Fill in the blanks, press

ENTER to see the result. If the answer is correct,

“Correct!” will be shown, then displays next word.

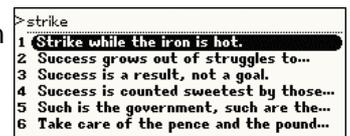

Note:

If your answer is wrong, The message “Wrong!” and the correct answer will be displayed. You can

▲ to look up the proverbs on the previous/next page.

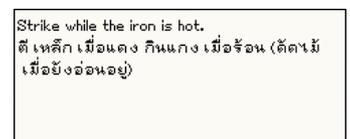

Ex. Search the English proverb “Strike while the iron is hot”.

Input “Strike”, you can see the first one in the index screen is

the just one we need.

Press **ENTER** to access the definition screen.

Note:

1. The operation of searching Thai proverbs is the same as above.
2. You can cross search up to 20 windows.

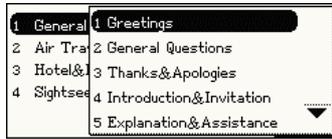

6. Travel Dialogues

6.1 Travel Dialogues

The dialogues are categorized into 10 Groups

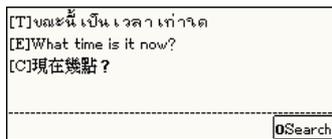

Press / to select an item, then press to open a sub-category.

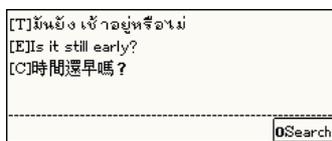

Press / or / to select.

Ex: Select "1 General Conversation" → "5 Time"

Press to view the next sentence

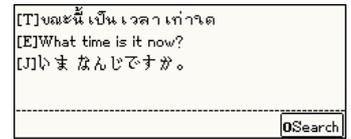

* Press [ENGLISH] to pronounce in English.

71

- * Press [SHIFT], then press [ENGLISH] to pronounce in Chinese/Japanese language.
- * Press the numeric key [1]~[8] to view other languages. (Chinese, Japanese, Korean, French, Germany, Spanish, Italian and Dutch)

Ex: Press numeric key [2] to view Japanese.

Press to highlight any English or Thai letter to access cross-search.

6.2 Full Text Screen

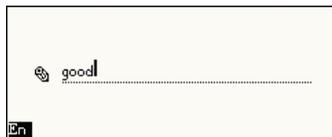

Full Text Search is to search the whole text in the Travel Dialogues that contains specified word or

72

phrase.

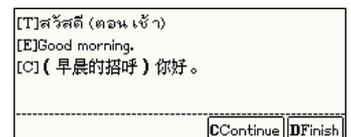

- Press numeric key [0].
- Press [THAI/ENGLISH] to shift input method to enter a Thai/English keyword.
- Press to start.
 - * Press letter key [C] to search the next dialogue.
 - * Press [D] or press [ESC] to stop to search next one.

Ex: Search the dialogues that contain the word "good", then press to confirm.

Note:
You should press [THAI/ENG] to shift input method firstly.

Access a sentence which contains the word "good".

7. Useful Vocabularies

The useful vocabularies are categorized into 10 groups.

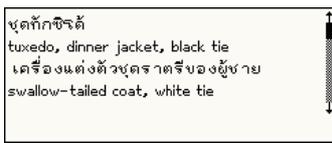

73

74

Select a group and a sub-item.

Press to view English words and its Thai translation.

Press / to view the previous / next vocabulary.

Note:

You can cross search up to 20 windows

8. English Names

- Input the English name.
- Press to view its origins and Thai meaning.
- You can cross search up to 20 windows.
- Press / to view the previous/next English name.

Ex. Select "Men English Names"

Input "Tom"

Press

Note:

The operation of Women English Names is same as the operation of Men English Names.

9. English Affixes

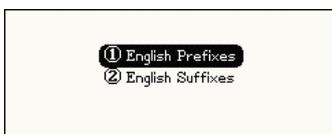

- Type the first or the first few letters of the affix, a list of affixes will be displayed for you to

select.

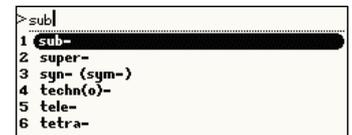

- Press / to highlight the affix, press to access its meaning and example screen.
 - * Press / to view the meaning and example of previous/next affix.
 - * Press [ESC] to return to the index screen.
 - * You can cross search up to 20 windows.
- Press / to look up the affixes on the previous/next page.

Select "1. English Prefixes" or "2. English Suffixes" to access English prefixes or suffixes index screen.

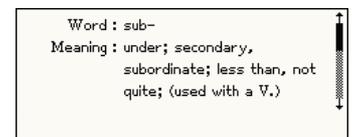

Ex. Press numeric key [1] to select "1. English Prefixes"

Input "sub"

Press

Note:

The operation of English Suffixes is same as the operation of English Prefixes.

10. Adjectives

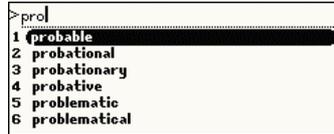

- Type the first or the first few letters of the adjective, a list of adjectives will be displayed for you to select.
- Press / to highlight the adjective,

press [ENTER] to access its Thai meaning screen.

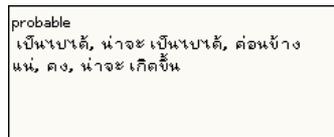

- * You can cross search up to 20 windows.
- * Press ▲ / ▼ to view the meaning of previous/next adjectives.
- * Press [ESC] to return to the index screen.

C. Press ▲ / ▼ to look up the adjectives on the previous/next page.

Input the adjectives you want to search.
Ex: Input "pro".

Select "probable", then press ENTER to access the source and the meaning of Thai.

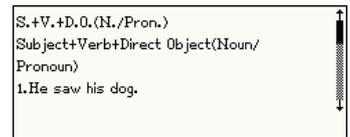

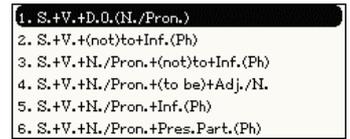

11. Verb Patterns

The "Verb Pattern" initial screen.

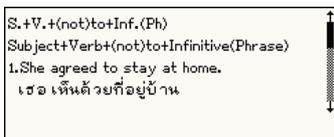

Press ▲ / ▼ to page up/down to view.

Select the one you want to look up, press ENTER; or directly press corresponding numeric key.

Press ▲ / ▼ to scroll a line up/down.

Press ▲ / ▼ to display the previous/next pattern.

numeric key.

Note:

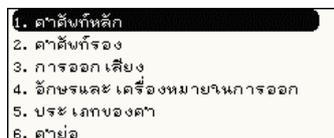

You can cross search up to 20 windows.

Note:

You can cross search up to 20 windows.

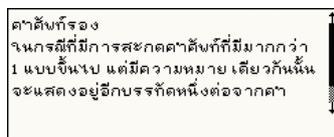

12. Dictionary Appendix

The "Dictionary Appendix" initial screen.

Press ▲ / ▼ to scroll a line up/down; Press ▲ / ▼ to page up/down.

Select one and press ENTER to look up; or directly press corresponding

Part3. Pim

Name Card Manager

- * Allows to create the name card for friends, relatives, commerce and so on.
- * Allows to edit category.
- * Provides keyword and telephone number search.
- * Classified into 5 categories, names in these categories can be changed or modified.
- * Allows to duplicate, modify, delete a record or create a new one.
- * Allows to set a password for the security of saved data.

Memorandum

- * Allows to input Thai, English, numbers and special symbols.
- * Allows to edit category.

83

Eastern and so on.

- * Provides the detailed name, address, post code, telephone, fax and the local province of the police station.

Hospitals in Thailand

- * Provides hospitals in this country, including Bangkok, Suburban, Central, Eastern and so on.
- * Provides the detailed name, address, post code, telephone, fax and the local province of the hospital.

Thai Embassy Overseas

- * Provides all Thai Embassy in other countries, including in America, Europe, Africa and so on.
- * Provides the local city, state, detailed address, telephone, fax and homepage of the Embassy.

85

- * Classified into 3 categories, the categories can be changed and modified.
- * Allows to duplicate, modify, delete a record or create a new one.
- * Allows to set a password for the security of saved data.
- * Allows to set a password for the security of saved data.

To Do List

- * Allows to set the priority of each task.
- * Allows to access daily task arrangement.
- * Allows to duplicate, modify, delete a record or create a new one.
- * Allows to set a password for the security of saved data.

Police Station in Thailand

- * Provides police stations in this country, including Bangkok, Suburban, Central,

84

Telephone Information

- * Provides International Dialing Guide, Country Code all over the world and Thai Area Code.

Chinese Fortune Teller

- * Allows to search fortune teller of yourself.
- * Allows to open the calendar to input birthday and select birth time.
- * Allows to look up weight.
- * Allows to shift solar and lunar.

Physiological Curve

- * Allows to open the calendar to input your birthday and the date you want to look up.
- * Provides you with three kinds of curves: Emotion, Mental and Physical.
- * Provides analysis of the curve.
- * Allows to shift solar and lunar.

86

Personal Information

- * Allows to input your detailed personal information, and you can save and modify it.

87

Operation Summary

1. Data Input

Name Card Manager, Memorandum and To Do List provide corresponding data items to users. You can input data by using the desired input methods.

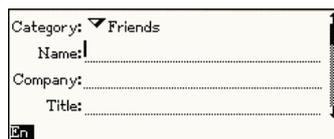

- * Provides fields for inputting data.
 - Press [THAI/ENG] to select the corresponding input methods;
 - Press  to move the dotted frame to select  column, then press  to select items from the drop-down menu.
 - Press  /  to scroll up/ down to input data.
 - Press  /  to view the column;
 - Press  to go to the next line;
 - Press [SAVE] to store the data;
- * Provides to edit the category. (except To Do List)

Ex. Name Card Manager

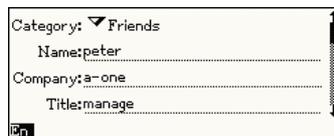

88

1.1 Input Data in Column

Select the column

Input data

Press numeric key to select category

1.2 Edit Category

Editing the Category

The Name Card Manager is classified into 5 default categories, including Commerce, VIP, Personal, Relative and Friends. You are allowed to increase 3 more categories; Memo is classified

89

to 3 kinds: "Daily, Commerce, Family", and you are allowed to increase 5 more categories. The new categories can be deleted in Time-->[Memory]. All names of the categories can be changed or modified.

- In the index screen, press  to select "All Cards" column, then press  to select [4 Edit Category] to open the category window.
 - * Select a category, then press  to modify the name.
 - * Press  to scroll the line and search a blank category, then press  to edit.
- Press [SAVE] to confirm.

90

Select corresponding field to set category

Press corresponding numeric key to modify the name of the category.

2. Data Index

If there is saved data, it will provide the data index when you access the function, then you can select corresponding items to search the content. Privacy data and data deletion functions are available in the index screen.

- * You can directly access the detail view.
- * Memorandum provides categories, you can select one of them to access the index screen.
- * Schedule index screen provides "A day

91

In the index screen, select one, then press to access detail view.

Operation Steps:

1. Name Card Manager

1.1 Input Data

Allows to create, input, store, search, edit or delete name card data.

If you use it for the first time, Press letter key [Y] to add data; If there has already data saved, press numeric key [1] to add data.

93

schedule, all schedules, week and day charts".

- * To Do List index screen provides data search by date.
- * Anniversary index screen provides lunar and solar calendar selection.
- * Class Schedule does not provide the index. You can directly access it to view your records.

Ex. Name Card Manager

Select one in the index screen.

3. Detail View

The detail view screen provides you with detail data contents. You can modify, duplicate, delete data or add new one.

Ex. Name Card Manager

92

Input data

- Press to move the dotted frame to select column, then press to select one category from the drop-down menu.
- Press direction key to move cursor to input data.
- When inputting the "birthday", you can access the calendar to select a date.
- After finishing inputting data, press [SAVE] to save the data, and return to the index.

Provides detailed view to facilitate users to look up.

1.2 Search Data

In the index screen,

press numeric key [2], then press direction key to move the dotted frame to select , press , then press numeric key to select Keyword/Tel Number Search.

Input keyword "a", then press .

Press numeric key [1] or  to access detail view screen.

Press numeric key [3]/[2] to view next/previous data.

Note:

If the password has been set in the <Time — System Setting— Password Setting>, you must input the password first to open the Name Card Manager.

2. Memorandum

Provides "Daily, Commerce, Family" 3 built-in categories and other 5 categories created by users to manage daily memorandum.

- * Press numeric key [1] to add or edit category.
- * Press numeric key [2] to show all saved data in all categories.
- * Press numeric key [3] to search data.

Select a type of category. If you use it for the first time, Press letter key [Y] to add data; If there has already data saved, press numeric key [1] to add data in the corresponding index screen.

Input data.

Press [SAVE] to return to the index screen.

- * Press numeric key [1] to add data.
- * Press [2] to delete data.
- * Select highlighted data, then press  to access detail view screen.

Note:

For operation steps about adding, editing, searching, deleting and securing data, please refer to 1.Name Card Manager.

3. To Do List

The usages of To Do List are very similar to Name Card Manager, only brief explanations will be provided here.

If you use it for the first time, press letter key [Y] to add data; If there has already data saved, press numeric key [1] to add data.

3.1 Adding Data

Input data

- * Press  /  to move the dotted frame to select "[]", then press [SPACE] to mark to select the completing time.
- * When you select "Priority" column, press

to select the level of priority.

* Press [SAVE] to return to the index screen.

In the index screen:

You can add new or delete item, also can search and select the type of display.

Press numeric key [5]

to select the type of display: All,

Unfinished and

Finished. Ex. Select

“All”.

3.2 The Index Screen

The following icons show the status of a task.

—Time is up but the task has not been completed yet.

—The task has been completed

—The task has not been completed yet.

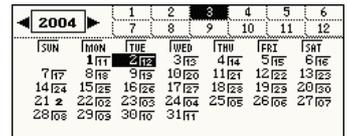

3.3 Searching the Events of a Specified Date

Press numeric key [2] on the index screen and select a date, the task of the day will be displayed.

Ex. View the task of 2nd, March.

Press [2] to search, select 2nd, March

Press to confirm.

Note:

For other operation such as modifying, duplicating or deleting the data, please refer to the related explanations in Name Card Manager.

4. Police Stations in Thailand

There are police stations in Thailand, including the detailed name, address, post code, telephone,

fax and the local province of the police station.

* Press / or / to look up data.

Area Index Screen:

Select one, then

press .

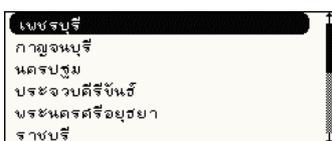

Province Index

Screen:

Select one, then

press .

Police Stations Index

Screen:

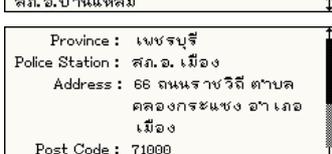

Select one, then

press .

Detailed Screen:

Press / or / to look up.

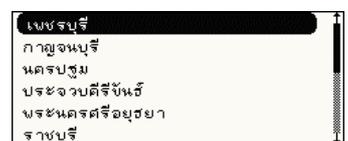

Press [ESC] to return to the previous screen.

5. Hospitals in Thailand

There are hospitals in this country, including Bangkok, Suburban, Central, Eastern and so on. It provides the detailed name, address, post code, telephone, fax and the local province of the hospital.

Ex. Select “Central” area:

Detailed Data:

Note:

The operation of this item is same as the former (Police Stations in Thailand), please refer to the related explanation of it.

6. Thai Embassy Overseas

Ex. Select "Africa":

Egypt
Kenya
Morocco
Senegal
South Africa

Then select "Morocco", press

C'try : Morocco
State : Rabat
Address : Royal Thai Embassy 11 Rue de Tiddes, RABAT, Morocco, B.P. 4436
Tel : (212-7) 763-365, 763-328

Note:

The operation of this item is same as the operation of Police Station in Thailand, please refer to the related explanation of it.

103

7. Telephone Information

The initial screen:

① International Dialing Guide
② Country Code
③ Thai Area Code

Ex. Select "Country Code", press

> bel
Belgium 32
Belize 501
Benin 229
Bermuda 1

Input the first letters of the country to look up the code.

Press ▲ / ▼ to

search line by line;

Press ▲ / ▼ to

page up/down.

8. Chinese Fortune Teller

Make comments on one's date based on year, month, date and hour of birth.

A. Press ▲ / ▼ to shift the fields.

104

* Select "Birthday", press to open the calendar to select.

* Select "Birth Time", press to choose the time menu.

B. Press letter key [B] to view the weight of the hour of birth; Press [A] to view the analysis; Press [C] to shift lunar/solar date.

Ex. Searching "Jan.22th,1997"

Fortune Teller Menu

Birthday : 2004/03/01
Birth Time : ๒๓:๐๑ 23-01
A Fortune Teller B Weight C Lunar

Select or input the time of birth or the hour.

Birthday : 1997/01/22
Birth Time : ๒๓:๐๕ ๒3-05
A Fortune Teller B Weight C Lunar

Press letter key [A] to view the analysis.

Birthday: Solar 1997/01/22 เป๋า
Weight: 4.8
Fortunes: มีความเจริญในการรับ
ราชการที่ดี
Poem: ชีวิตเริ่มต้นต้องลำบาก
พี่น้องญาติมิตรอย่าคิด

9. Physiological Curve

B. Press ▲ / ▼ to shift the fields.

* Select "Birthday", press to open the calendar to select.

* Select "Date", press to open the calendar to choose a date.

B. Press letter key [A] to select the three kinds of curve: "1 Emotion, 2 Mental and 3 Physical". Press [B] to view the integral analysis of the three curves; Press [C] to view the analysis; Press [D] to shift lunar/solar date.

105

106

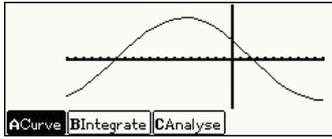

Ex. Searching
 "March.20th, 2001"

Birthday:
 Date:

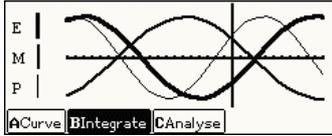

Select or input the
 birthday and date.

Birthday:
 Date:

Press [A] to select "2
 Mental".

Press [B] to view the
 three curves.

Press [C] to view the
 analysis.

	Highest Day	Lowest Day
Emotion	02	18
Mental	14	30
Physical	01	12

10. Personal Information

You can search your detailed personal
 information.

Greeting: hello
 Name: alwyn
 Company: samsung
 Title: saler

Note:

*The method of inputting or modifying data is same
 as Name Card Manager, please refer to the
 related explanation of it.*

Part4. Math

Calculator

- * 12-digit calculator for four fundamental arithmetical operations.
- * Other calculations: percentage, square root.

Multi-lines Calculator

- * Four basic arithmetical operations
- * Ordinal data list for searching and modification
- * Stores up to 99 data entries.

Scientific Calculator

- * Allows to change counting system and angular unit.
- * Function, Boolean calculation and conversion for angle, radian.

109

Graphic Calculator

- * Graphic of functional equations, and parametric equations
- * Display four function graphs simultaneously
- * Graphic process: transformation, tracing, shade, integral, and inequality for graphed equation.

Statistical Calculator

- * Four basic arithmetical operation arithmetical operation, calculate functions and integrals
- * Statistically calculates uniform statistic, linear regression, logarithmic regression, index regression and power regression based on the values entered
- * Stores, analyzes for data up to 99 data entries.

110

Formula Calculator

- * Provides mathematic formula and fundamental equations used in calculation of area volume, series, probability, geometry and triangle.
- * Calculates formula depending on the entered variables.

Unit Conversion

- * Conversion computation among units of the measurements: length, temperature, area, calorie, volume, power, weight and pressure

Currency Conversion

- * Conversion computation among about 140 currencies
- * You are allowed to set exchange rate and base currency

111

Size Conversion

- * Conversion charts of European, US and Japanese garments size

Expense Management

- * You are allowed to manage your incomes and expenses
- * State the income and expense and exchange the special currency.

Investment Management

- * You are allowed to manage your personal investment
- * The default investments are: stock, fixed deposit, currency, gold, bond and you are allowed to increase new categories

112

Loan Management

Calculates loan amount, repayment and interest with known values.

1. Calculator

1.1 Function Keys

MR: memory

replay ([J])

MC: memory clear ([H])

M -: minus from memory value ([K])

M+: plus into memory value ([L])

Memory	288
	Dec
	0.

113

AC: all clear ([N])

C: clear ([M])

+/-: plus or minus ([P])

[: percentage ([V])

. : a decimal point

÷: division ([Y])

x: multiplication ([U])

-: subtraction ([I])

+: addition ([O])

√: square root ([D])

=: view result (ENTER)

1.2 Four Basic Arithmetical Operations

Follows the rules of multiplication and division first, addition and subtract latter.

Ex. Calculate $10+(10 \times 12)=?$

Press : [1][0], [L], [1][0], [U], [1][2], [L], [J], (ENTER), the result is 130

Other Operations

Ex. Percentage: Calculate 20% of 125.

Press [2][0], [V], [U], [1][2][5], (ENTER),

114

the result is 25.

Ex. Square Root: Calculate $3 \times \sqrt{66}$

Press [6][6], [D], [U], [3], (ENTER), the result is 24.3721152139.

2. Multi-lines Calculator

Ex. Press [1][1], [U], [6], [O], [4][6], [I], [1][0],

(ENTER).

The result is 102

Press  to highlight

line, then press 

/  to select a line to modify.

Ex. Select the second line, press [8][7], (ENTER).

The result is 993.

01	11
02 ×	6
03 +	46
04 -	10
=	102

01	11
02 ×	87
03 +	46
04 -	10
=	993

Note:

When the result is over 999999999, it will appear error.

115

3. Scientific Calculator

3.1 Function Keys

sin: sine ([W])

cos: cosine ([E])

tan: tangent ([R])

Ln: natural logarithm ([S])

Log: logarithm ([A])

Mode: shift among counting systems ([SHIFT]+[X])

x^y : yth power ([SHIFT]+[F])

x^2 : square ([SHIFT]+[D])

reciprocal of sin, cos, tan, x^y , x^2 , ln, log.

Inv: $(\sin^{-1}, \cos^{-1}, \tan^{-1}, \sqrt{x}, e^x, 10^x)$

Hyp: "hyper" of hyper sine, hyper cosine and hyper tangent. ([SHIFT]+[Q])

A. Press [SHIFT]+[X] to shift among **DEC** / **HEX** / **OCT** / **BIN**.

* DEC—decimal HEX—hexadecimal
BIN—binary OCT—octonary

B. Press [SHIFT]+[Z] to shift among **DEG** / **RAD** / **GRAD**.

116

- * DEG—degree RAD—radian
GRAD—gradient

Ex: $\cos 60 = ?$ Steps follow:

Press [E], [6][0], press **ENTER**, the result is 0.5

Ex: 20AND55=? Steps follow:

- Press [2][0]
- Press "and" ([SHIFT]+[Y]).

C. Press [5][5], press **ENTER**. (10100AND11011=10100)

Ex. Sinh(30)=?

Steps follow:

- Press [SHIFT]+[Q], "F1VP" will be displayed on the right top of the screen.
- Press sin ([W]).
- Press [3][0]
- Then press **ENTER** to confirm.

Ex: How to convert minutes and seconds to degrees?

Ex: $15^\circ 30' 20'' = ?$ Steps follow:

A. Input [1][5], press [T]

B. Input [3][0], press [T]

C. Input [2][0], press [T]

D. Press **ENTER**

Ex. Calculate $20\log(1/\sqrt{2})=?$

Steps follow:

A. Input [2][0], press [A]

B. Input [1], press [Y]

C. Press [D], input [2]

D. Press **ENTER**

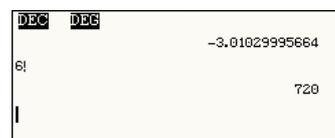

Ex: $6! = ?$

Steps follow:

A. Input [6]

B. Press [V] to input !

C. Press **ENTER**

Press [N] to clear all numbers.

Note:

Hexadecimal, octonary and binary mode do not support scientific symbols.

4. Graphic Calculator

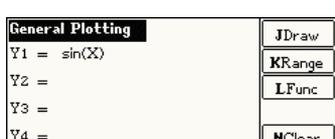

You can press **▲** / **▼** to select "General plotting" or "Shade plotting".

Ex. $Y1 = \sin(x)$. Steps:

A. Select "1.General Plotting".

B. Press letter key [L] to select [sin]

C. Input [x] (press [C])

[JDraw]: To draw the functional graphic.

[KRange]: To view the default range of values.

[LFunc]: To select the function type.

[NClear]: To delete all values.

* Press [K] to view the default range of values.

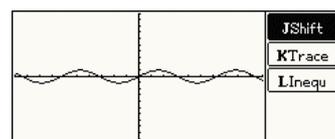

* Press [J] to re-set the range of coordinates as the standard values.

* Press [L] to confirm.

* Press [N] to delete all values.

Press [J] in the initial input screen to draw the Graphic.

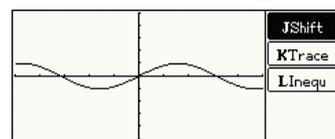

* Press [J] to access transforming.

* Press [K] to select tracing method.

* Press [L] to access in equation calculation.

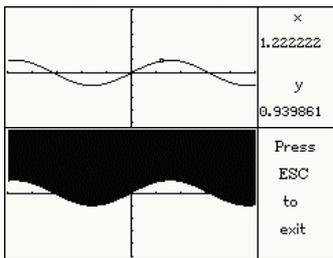

Press [J]→select "2.Zoom In (Magnifying)", press **ENTER**→press

again

Press [K] → select “1. Tracing Along Curves”,
press → press / to select any dot

along the curve to display the coordinate number
Press [L] → select “Y1”, press
→ select “1.Y>=f(X)”

5. Statistical Calculator

[JFunc]: To select a trigonometric function.

[KCalc]: To select a calculation type. (Uniform Statistic, Linear regression, Logarithm regression, Exponential regression, Power regression)

[LSort]: To select a sorting type (rise or fall in X, rise or fall in Y)

121

Press [K], select “1.Uniform Statistic”.

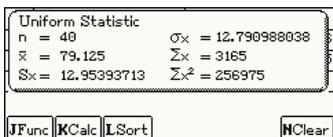

Note:

$$n = 7 + 2 + 4 + 5 + 3 + 8 + 6 + 5 = 40$$

$$\sum X = 60 \cdot 7 + 65 \cdot 2 + 70 \cdot 4 + 75 \cdot 5 + 80 \cdot 3 + 85 \cdot 8 + 90 \cdot 6 + 100 \cdot 5 = 3165$$

$$s_x = \sqrt{\frac{1}{n-1} \sum_{i=1}^n (x_i - \bar{x})^2}$$

$$s_y = \sqrt{\frac{1}{n} \sum_{i=1}^n (y_i - \bar{y})^2}$$

Sorting Type:

- Ascending sort from X-Sorts X in ascending order.
- Descending sort from X-Sorts X in descending order.
- Ascending sort from Y-Sorts Y in ascending order.
- Descending sort from Y-Sorts Y in descending order.

The Table of regression:

Types of regression	Formulae	Range of values
Linear	$y = a + bx$	

123

[NClear]: To delete all statistical data.

For uniform statistic calculation, Y_i is the total number of X_i .

For example, 10

people got 60 points, means that (X_i, Y_i) is $(60, 10)$.

Ex. Mathematics exam scores of a class of 40 students are as follow:

Score The No. of students

60	7
65	2
70	4
75	5
80	3
85	8
90	6
100	5

Input all data

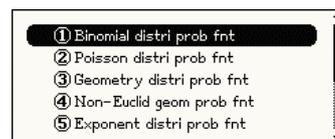

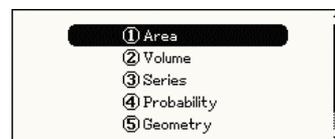

i	X_i	Y_i
06	90	6
07	100	5
08		

Logarithm	$y = a + b \ln x$	$X > 0$
Index	$y = ab^x$	$Y > 0$
(Exponential)		
Power	$y = ax^b$	$X > 0, Y > 0$

6. Formula Calculator

Press / or / to select the first category, and then select the sub-category.

Ex. Select “4.Probability”. Steps: Select “4. Probability” under the formula calculator menu, press .

Select “1.Binomial

124

distri prob Fnt"
 Input [5], [8] [0.5]
 (Press  to input next value).
 Press  to calculate.

$$P(x) = C_n^x p^x (1-p)^{(n-x)} \quad 0 < p < 1$$

$$x = 5 \quad X = 0, 1, 2, \dots, n$$

$$n = 8$$

$$p = 0.5$$

$$P = 0.21875$$

7. Unit Conversion

- Press direction keys to select your desired category, then press  to access.
- Press [SHIFT], then press [THAI/ENG], or directly press  /  to shift fields, then press  to select a measurement.
- Input value and view result.
 Ex. Convert 238Kg to SCT.
 Press numeric key [7] in initial screen.

125

Select measurement.
 Press  /  to select item line by line; Press  /  to page up/down.
 Press [3].
 Press [SHIFT], then press [THAI/ENG] to select "Num", input "238"

▼ SCT	▼ SLT
Rate 1	: 16.0
Num 0.0	= 0.0
Num 0.0	= 0.0
Num 0.0	= 0.0
