Chapter 1 General Operation Guide

1.1 Unit On / Off

Press the button in the front of the unit tenderly to open it. When you close the unit, just fold it softly and there will be a “click” sound that indicates the unit has been closed well.

1.2 Power Supply

The unit is powered by two AAA batteries. If it cannot be operated or does not work properly, the unit will indicate the power supply is weak, please turn off the machine and replace the batteries.

Steps for Recharging the Battery:

1. Turn off the unit.
2. Opening the battery compartment door on the back of the unit, you should push the lock to “unlock”, and press it lightly.
3. Cover and lock the battery compartment. The unit cannot be turned on unless the battery compartment door is closed properly.
4. When the message “Low voltage! Turn off machine!” appears on the screen, it indicates the voltage is not enough, please replace the batteries or connect the adapter. When connecting adapter, the green diode on the right back of unit will open.

Note: Please use Alkaline batteries.

Chapter 1 General Operation Guide

Cautions

1. Please follow the specified steps to replace batteries and keep the position of batteries (positive and negative pole) correctly.
2. Never leave the used batteries in the battery compartment.
3.  shows the power is enough;  shows the power is weak, now you should replace the batteries according to the message on the screen.
4. Don't use the old and new batteries together; remove the batteries if the unit will not be used for a long time in order to avoid the damage.

About Using Adapter

1. Press  to turn off the unit before plugging in the adapter.
2. Press  to turn off the unit before unplugging the adapter. If the unit hangs because of improper operation, just re-plug the adapter. If necessary, please use .
3. Adapter specification

Hong Kong, China:	Input	AC220V	50Hz
	Output	DC6V	350mA
Taiwan, China :	Input	AC110V	60Hz
	Output	DC6V	350mA
USA:	Input	AC110V	60Hz
	Output	DC6V	350mA
4. You are highly recommended to use the adapter

Chapter 1 General Operation Guide

we provided or other qualified brands. We assume no responsibility for any damage to the unit arising from the use of AC adapters, which do not comply with the national standard.

5. When you use our product, please put the batteries which are enough power into your unit even if you use adapter. Because the unit will not work properly if electricity is cut off suddenly.

Steps for Restoring Data

1. This unit will restore data if the power is cut off when saving data. In order to avoid losing data during the restoring process, please do not cut off the power, reset or open the batteries compartment door.
2. We suggest when restoring data, please make sure there is enough battery power. If you use adapter, please keep the electricity stable, securely connected, and the voltage should be 6V. After checking all these, you can open the unit.

System Initialization

If the unit does not work properly, the message “Please wait...” and “Time and other settings may have been changed. Reset them if necessary?Y/N” appears on the screen. Press **N** to enter main menu screen. Press **Y** to enter local time setting screen. After setting completed, press **清除** to return the main menu.

Special Function Keys

The followings are special function keys. You should press  first and then press special function key to perform corresponding function. (**Note:** not pressing them simultaneously)

- 1.  +  insert character or character string
- 2.  +  input “ ’ ”
- 3.  +  input “ * ”
- 4.  +  show special symbol
- 5.  +  view dictionary history list

1.4 Input Method

There are 8 input methods in this unit: English, Symbol, Taiwan, Mandarin, Strokes, CangJie, Simple, Radical. And Strokes, CangJie, Simple and Radical are only

Chapter 1 General Operation Guide

available in Traditional Chinese Mode.

In Chinese Input Mode, you should press  to choose Chinese Input and press     to move the cursor, then press  to choose it.

English Input Method

Input an English word.

e.g. Input “close”.

Press  to switch capital and small letter.

Press  to switch capital and small letter temporary.

Symbol Input Method

Press  +  to view the special symbol, and press   to view more content.

Press the corresponding numeric key to select the desired symbol.

The special symbols that available are:

! @ # \$ % & - / () < > [] + ×
? * ^ , { } " ' | = \ , . ; :

Chapter 1 General Operation Guide

Taiwan Input Method

e.g. Input “ \angle ” and press

to confirm (means the first tone, 6 means the second tone, 3 means the third tone, 4 means the fourth tone).

Press the corresponding
numeric key to select the
desired character.

Mandarin Input Method

Input the Mandarin phonetic alphabets.

e.g. Input “**QING**”, then press

to confirm (means the first tone, 6 means the second tone, 3 means the third tone, 4 means the fourth tone).

Press the corresponding
numeric key to select the
desired character.

Strokes Input Method (only exists in Traditional Chinese mode)

Input characters by inputting

Chapter 1 General Operation Guide

total number of strokes, and

press .

e.g. Input “ 8”, and then press

 to confirm.

Press the corresponding numeric key to select the desired character.

CangJie Input Method (only exists in Traditional Chinese mode)

Input the Cangjie codes of a character.

e.g. Input “ 大月” (Please refer to Chart of Cangjie Input Method).

Press the corresponding numeric key to select the desired character.

e.g. Press  to choose “有”.

If there is only one Cangjie code of a character, this character will appear in front of the cursor; if no corresponding character exists, a message of “No Word” will appear on the screen.

Simple Input Method (only exists in Traditional Chinese mode)

It is similar to CangJie, but

Chapter 1 General Operation Guide

only needs to input the first and the last code of the Chinese character.

e.g. Input “手一”.

Press the corresponding numeric key to select the desired character.

Radical Input Method

Input the number of strokes of the radical.

e.g. Input “6”, and press .

to confirm. Then input the number of remaining strokes after choosing the desired radical.

e.g. Choose “竹”, and input the remaining strokes “4”, press  to confirm.

Press the corresponding numeric key to select the desired character.

1.5 Categories of Contents

There are 5 main menus including Dictionaries, Learn, Organizer, Calculations & Financial Mangement and Games in this unit.

Chapter 1 General Operation Guide

To Enter the Desired Main Menu

Press F1-F5 Function Keys to choose the item, and press     to move the cursor, then press  to enter. Also you can press  to choose your desired item.

1.6 Cautions

Please pay attention to the following items while you are using the unit, otherwise we will charge the cost of materials for maintenance.

- Avoid humidity, never let water or other liquid flow into the unit.
- Don' t place the unit under direct sunlight or near high temperature.
- Don' t repair the unit by yourself, please contact our Customer Service Center for repair.
- Prevent the unit from dropping on the ground, bending or strong impact.
- Don' t apply strong detergent cleaning agents to clean the unit.
- Don' t touch the screen with sharp-headed objects.
- Before using "RESET" or repairing, please keep a copy of all important data so as to input them again later.

1.7 Auto-Power-Off

- The unit will automatically be turned off after the

Chapter 1 General Operation Guide

preset period with no key activity. Press  key to turn on the unit again. (The default is 3 minutes.)

- If automatic power-off takes place while inputting or editing, the data you are inputting will not be saved.
- Even if the unit is turned off, it will automatically be turned on when the alarm time arrives.

1.8 Troubleshooting

Q: Why is the unit often off automatically? What should I do?

A: The auto-off period set is too short. So, please set the Auto Off Period in System Setting again. The auto-off function helps you save the battery. The longer will be the auto-off period, the more power will be used.

Q: Why cannot I save records?

A: Because there is not enough memory to save additional records. You are recommended to delete some unnecessary data from your unit to free the memory.

Q: Why cannot the unit be powered-on?

A: (1) Because of low battery level. Please replace the used batteries with new ones.
(2) Because the batteries are not placed properly. Please make sure that the polarities of the batteries are correct.

Chapter 1 General Operation Guide

- (3) Because the battery compartment door is open.
Please close it.

Q: Why is the screen not clear?

A: The screen contrast or brightness is probably not adjusted well, you can adjust it in “Contrast / Brightness” on the left of the screen.

Q: The pronunciation is too weak / loud, the speed is too slow / fast, why?

A: It is likely the volume is set too high / low, the speed is too slow / fast, please adjust the volume, the rate and the frequency in Speech Level or adjust the volume contrast on the right of the unit.

Q: If the password is forgotten, what should I do?

A: Please contact our Customer Service Center, we would remove the password as soon as possible, but you are requested to show the own certificate.

Note : You are strongly recommended to keep a separate record of your password.

4.10 Revision Test

It contains Oxford EC Dict.Review, Eng-Chi Review, Chi-Eng Review, Conversation Review and Vocabulary Review for your reference. You should save the data your choosed in Oxford EC Dict., Eng-Chi Dict., Chi-Eng Dict., Conversation and Vocabulary before testing. (How to save the data please refer to the relevant part of “Saving Record” in those above mentioned for details.) When you test, you have 5 methods to choose: Forward, Backward, Continue, Haphazard and Enquiry.

Chapter 4 Organizer

Choose “Revision Test” to enter, and press   to choose category.

Choose “Revision” to enter, and press   to choose revision category.

e.g. Choose “Eng-Chi Review”.

Press   to choose the revision method.

e.g. Choose “Forward”.

Press   to view the

other records. Press  to listen to the English pronunciation, press  +

 to listen to the Mandarin pronunciation, press  +

 to listen to the Cantonese pronunciation. Press  to exit.

Chapter 4 Organizer

When you choose “Enquiry”,
input the word you desired,
and press  or choose
the record from the index list
directly to search.

Eng-Chi Review
Please input keyword:
n

Note: Oxford EC Dict.Review, Chi-Eng Review, Conversation Review and Vocabulary Review are the same as Eng-Chi Review, please refer to the relevant part for details.

Test

It contains Eng-Chi Dictionary Test and Oxford Listen. Test. You can choose Forward, Backward, Continue or Haphazard to test.

Choose “Test” to enter.

Press   to choose
the test category.

Test

ion, press  +  to listen to the Cantonese pronunciation.

Chapter 5 Calculator

5.1 Simple Calculator

It can perform calculator's functions such as four operations, square, square root and percentage calculation, etc.

Choose "Simple Calculator" to enter and press  to confirm.

Calculate $126 + 12 = ?$

Input "126" and press  (i.e. "+"), input "12" and then press , (i.e. "=") to get: $126 + 12 = 138$.

Press  to exit.

Calculate $200 \times 10\% = ?$.

Input "200" and press  (i.e. "x"), input "10" then press  (i.e. "%"), and press  (i.e. "="), to get: $200 \times 10\% = 20$.

Chapter 5 Calculator

Press $\overset{\square M+}{\text{R}}$ (i.e. “M+”) to store the value to the memory.

Press $\overset{* M-}{\text{E}}$ (i.e. “M-”) to clear the value data in the memory.

Press $\overset{\text{MR}}{\text{W}}$ (i.e. “MR”) to show the value stored in the memory.

Press $\overset{\text{MC}}{\text{Q}}$ (i.e. “MC”) to clear the value saved in the memory.

Calculate $81 = ?$.

Input “81” and press $\overset{\sqrt{x}}{\text{V}}$ (i.e. “ \sqrt{x} ”), to get: $81 = 9$.

Calculate the multiple of “3”.

Input “3” and press $\overset{\times}{\text{U}}$ (i.e. “ \times ”), press $\overset{=}{\text{輸入}}$ (i.e. “=”), then to get: $3 \times 3 = 9$.

Chapter 5 Calculator

Press  (i.e. “=”) again,
to get: $3 \times 3 \times 3 = 27$.

5.2 Scientific Calculator

In this application, you can perform arithmetic calculations, function operations and other calculations. You can also modify the input data at any time.

Choose “Scientific Calculator” and press  to enter.

Press  with the corresponding key to input your desired function. The corresponding relations between function and key are as following:

sin	Q	\sin^{-1}	O
cos	W	\cos^{-1}	P
tan	E	\tan^{-1}	A
sinh	R	\sinh^{-1}	S
cosh	T	\cosh^{-1}	D
tanh	Y	\tanh^{-1}	F
sign	U	abs	G
int	I	round	H

Calculate $1234+867+\cos 30 = ?$. Input “1234” and press  (i.e. “+”), input “867” and press  (i.e. “+”).

Press  +  again.

Chapter 5 Calculator

Input “30” and press  (i.e. “=”) or **F1** to get:

234+867+cos30 =
2101.8660254038.

Press  or **F2** clear the calculation and begin another new one.

5.3 Currency Conversion

19 currencies are provided for your conversion. To perform two-way conversion, you should set the exchange rate first. You can also define eight currencies by yourself.

Press  and move the cursor to “Currency” field on the left, press  to open the submenu, then press   to choose the currency name and press  to confirm.

e.g. Choose “dollar AUD”.

Chapter 5 Calculator

Press  to move the cursor to “Currency” field on the right, then choose another currency name in the same way mentioned above.
e.g. Choose “dollar USD”.

Press  to the “Rate” field on the left, input the rate “1.315” and press  to confirm.

Press  to the “Exchange” field on the left, input AUD “200”, then press  or **F1** to get the conversion result of USD.

Select “Unnamed1-8” from “Currency” field to selfdefine the currency.
e.g. Select “Unnamed1”.
Press .

Press **F2** to self-define the currency name.

Chapter 5 Calculator

Input the desired currency name. (the currency name cannot be longer than 9 Chinese characters or 18 English letters)

e.g. Input “Rouble” and press  to save. Then it will automatically appear in the currency list. (**Note:** The user-defined currency can be converted with other currencies.)

5.4 Unit Conversion

It provides various categories such as length, area, weight, etc.

Press  to move the cursor to “Type” field, and press  to open the submenu, then press   to choose the currency name and press  to confirm.

e.g. Choose “Length”.

Chapter 5 Calculator

Press  to move the cursor to “Unit” field, and choose another unit name in the same way mentioned above. e.g. Choose “inch”.

Press  to move the cursor to “Unit” field of the right screen, and choose another unit name in the same way mentioned above. e.g. Choose “centimetre”.

Press  to view the result. Choose “Result” field, input “3”, then press  or  to figure out “3 inch = 7.62 centimetre”.

5.5 Income and Expenses

In this application, you can keep detailed records of income and expenses in daily life. The data can be classified by category for your reference.

Inputting Data

Choose “Inc.& Exp.” and

Chapter 5 Calculator

press  to confirm.

If any records, enter view mode; if no record, enter input mode directly.

Inc. & Exp.		% Save

6.1 Games

Brick Game

The Brick Game will give you a broad and free leisure space.

Choose “Brick Game” to enter.

Press   to choose a level, then press  to start a game.

Press  to revolve the bricks position; press  or

 to move brick left or right, press  to accelerate the brick falling. The line will disappear automatically once this line have been filled up, the system will also add the points to you automatically. The up right corner of the screen shows the score and lower shows the level that you are

Chapter 6 Reference

playing. The “line” shows the number of lines that should be completed in the current level. Press **P** to pause the game, press **P** again to resume the game. Press **F1** to view the Top 10 list, press **F2** to renew the game, press **清除** to exit.

When the game is over, press **輸入** to input your name, and press **輸入** again to confirm that you can view Top 10 list.

Typing Expert

There are “Level 1”, “Level 2” and “Level 3” in this game. You need to type the falling English letters according to the screen, then you can gain the score. This method will help you familiarize the keyboard and improve your typing speed.

Choose “Typing Expert” to enter. After inputting your name, press **輸入** confirm.

Chapter 6 Reference

Press   to choose the level, and then press  confirm.

Press  to start the game.

The letters will fall continuously from the top of the screen; you should press the relative keys according to the screen's display, the letters will disappear and you can gain the score successfully. If you could gain 2500 points within 8 chances, you will upgrade to the higher level.

Frog Game

It is an interesting and exciting game. There are five levels in this game, the speed is different in each level.

Choose "Frog Game" to enter and press   to choose the level.

Chapter 6 Reference

Press     to move the frog's position in order to get through the high way smoothly and reach the other river bank successfully.

Note:

1. There are three chances available in this game.
If three chances are used up, that means the three frogs have been hit or eaten or fallen into the river, the game will be over.
2. If there are eight frogs arrive at the other river bank successfully, the game will upgrade to a higher level automatically.
3. Your points will be added simultaneously when the frog goes ahead each step. After reaching the other river bank, the score will be doubled automatically.

Solitaire

It is an interesting card playing game.

Press "Solitaire" to enter.

Press   to choose "Bare Cards" or "Covered Cards".

Chapter 6 Reference

e.g. Choose “Bare Cards”.

Press **F3** to have hint for the position of the chess should be.

Press **F4** to play a new game.

Press **F5** to withdraw and play again.

Press **F1** to view the Top 10 list.

Note: You will be the winner if you can place the 5 chesses on one line faster than your opponent.

Chapter 6 Reference

GongZhu

GongZhu is game that you should play with others. It not only makes you feel leisure but also inspires your intelligence, improve your ability of analysis and calculation.

Choose “GongZhu” to enter.

Press  to start the game.

Note:

1. Noun definition: one round it means each player sent one card; “zhu” means spade Q, if you get this card, you will deduct 100 score, “yang” means diamond “J”, if you get this card, you will add 100 score; “double” it means club 10, if you cannot get score in the game, this card will give you 50 score, or else you will get the negative or positive double score at last; “zhu” and “yang” change colour: you can get all heart in one round, if once occurs, your score will change: the negative score and positive score will be opposite.
2. Compare big or small: A>K>Q>J>10>9>8>7>6>5>4>3>2
3. How to play: The player should send club 2 at first, each person sent the card in the same direction as clockwise, but you couldn't send the heart or spade Q, the person will win one round if his/her score is

Chapter 6 Reference

high, and he/she can send the card first at the next round. You couldn't send the heart unless other person send it in the last round. You will win the game if your score is the lowest than the others when the game is over.

4. How to calculate: After completing one round, the heart, spade Q, diamond J and club 10 in your hand will be calculated; the game will be over if one player's score is over 2000 negative or positive score or stealer ask to stop. If you get all heart in one round, "zhu" and "yang" change colour will occur, you will get opposite score; if you get all heart, spade Q, diamond J and Club 10, you will gain 1000 score as your reward.

Riddle

In this game, there are many interesting riddles for your guessing.

Choose "Riddle" to enter.

Press   to view the previous or next riddle.

Press  view the answer.

Press  to return to the main menu.

Press  to exit.

Chapter 6 Reference

Wisdom Chess

It is benefit for your intelligence and also very interesting. You can guess the four numbers depend on your logic thought. And it helps to improve your analytical skills and judgement.

Choose “Wisdom Chess”.

Press   to choose “Low level” or “High Level”.

e.g. Choose “Low Level”.

Press  to start the game.

Input four number choosing from 0-9 (in High Level, you can choose duplicated numbers), then press  to confirm.

The result will be shown on the screen after pressing

means the number you guessed and its position are both right.

means the number you guess is right but its position is wrong.

You will win the game if you can guess the answer within 12 chances.

Chapter 6 Reference

Press **F1** to show the answer.

Press **F2** to return the “Wisdom Chess” menu to choose the level.

Press **F3** to return the “Game” menu.

Black Jack

“Black Jack” is a game that not only needs luck but also needs intelligence. How to judge win or loss is so easy: if the points of cards in your hand added is nearest 21 but not exceed, you will win; but if exceeds 21, it means bust and also you lost this game.

Choose “Black Jack” to enter, and press **1** to enter into “Help”, press **3** to exit.

Press **2** to enter the game.

Note:

1.Points of cards calculation: The numbers from 2 to 10 are calculated by their original numbers. J, Q and K' s point is the same as 10, and A can stand for 1 point or 11 points. If player have 21 points but the stealer have not, the player will gain 1.5 times stake.

Chapter 6 Reference

2. After giving your stake, the stealer will send two cards at first. If your cards total score is not 21 points, now you have some methods to win: (1) send an other one card: the cards in the player' s hand is only not exceed 21 points, the player can ask for the next card; if the player' s points reach to 21 points when he/she asks next one, the 21 points is invalid. (2) stop to send card: if you(player) think the cards are enough, then need not next card, it is called "stop card". (3) divide into 2 times: if the two cards you first had is the same, you can divide the game into two times and the stake is the same. Moreover, if you get 21 points when you send the second card, you will only gain one time reward; also you can take premium: if the stealer has "A", he will ask you buy premium whether or not, and if you think that there is 10 points in his hand, it means 21 points, you can take premium.(the amount is half of stake) if your guess is right, you will gain two times of the premium, but if not, you will lose the premium. If the stealer is not 21 points, it means the stealer is lost, but the game will continue.

Wolf

This game will test your speed and sensitivity.

Choose "Wolf " to enter.

Chapter 6 Reference

This game includes two kinds: "A" and "B", press  to move the hat to left upper corner, press  to move the hat to left down corner, press  to move the hat to right upper corner, press  to move the hat to right down corner. Press  to pause, and press any key to continue.

Note:

1. Game A: Move the hat to catch the falling eggs, and you will add one point if you catch the egg successfully; if not, a chick will be shown on the right corner (it means you make mistakes); when three chick occurs (it means you make three mistakes), the game will be over. The numbers of eggs and its speed will be increased as the points increase. The system will cancel one mistake as your reward when your points reach to 200 points or 500 points.
2. Game B: Except the falling speed of egg is faster than Game A, the others is the same as Game A.

Chapter 6 Reference

6.2 Personal Information

You can keep your general personal information for further reference.

Inputting Data

Enter to edit screen.

Press   or   to move the cursor to choose the item.

Press  to choose the input method. After inputting one field, please press  to skip to the next field.

Press  to renew all data.

Press  to retain all data,

6.6 English Name

Common English names are collected with their Chinese equivalent.

Chapter 6 Reference

Choose “English Name” to enter. And press   to view the male’s name or female’s name.

e.g. Choose “Female”.

Press     to view the name page by page or press   to view the name sequentially.

Choose one name.

Press  to listen to the English pronunciation, press

 +  to listen to the Mandarin pronunciation, press 

+  to listen to the Cantonese pronunciation.

Press  to exit.

6.7 PC Sync

The unit can be linked with a personal computer to synchronize the information. (**Note:** Please make sure the two sides are well-connected before launching PC Sync.)

Chapter 6 Reference

Choose “PC Sync”, and press **F1** to view the last record, press **F2** to start synchronization.

Note: You should use the specialized serial cable to link the computer, you can enquire the details at our Customer Service Center.

6.8 Data Deletion

You can choose E-C User's Dictionary, C-E User's Dictionary, Memo, Schedule, To Do List, Telephone, Commemoration, Personal Inf., Revision Test, First Screen Picture and so on to delete the data stored in any one of them or all.

Choose “Data Deletion”.

Press **▲** **▼** to choose the desired item you want to delete.

e.g. Press **Enter** to enter the main menu and choose “Telephone”.

Press **N** to cancel the

Chapter 6 Reference

deletion.

Press **Y** to confirm to delete the data.

6.9 System Setting

There are 9 categories of settings for you to personalize the unit, you can follow the on-screen instructions to finish the settings.

Choose “System Setting” to enter.

Press     to choose your desired item.

Language

Choose “Language” to set Tradition, Simple or English.

Press   to choose “Tradition”, “Simple” or “English” then press  to confirm.

Keitone

To set the keitone on or off. If it is on, it will sound when you press any key.

Chapter 6 Reference

Choose “Keytone”.

Press   to choose
“On” or “Off”, then press
 to confirm.

Set Password

Setting password so as to keep data securely. The password can be formed with a maximum of eight numbers, letters or symbols. Only when you set the password, you can lock the data. The data which is kept secret cannot be viewed unless the password is cleared.

Note: If the password is set but the data is not locked, the data still can be viewed. Only when the password is set and the data is locked, the data can be kept secret. If the password is lost, you can take the unit to our Service Center for clearing it.

Choose “Set Password” to enter, input up to eight numbers, letters or symbols.

e.g. Input “123456”, then
press  to confirm, then
input it again to confirm.
To set password off, please

Chapter 6 Reference

enter “System Setting” again. Choose “Clear Password” to enter, input the original password and press

 to confirm.

Input Method

There are two methods for dictionary setting: Wisdom and Ordinary. The difference between two methods is that: Wisdom method will give you nearest word when you input some letters of one word or a character for you choosing (English letter line with alphabet, character line with dawuma.); Ordinary method will not show the nearest word on the screen, you should input whole word or phrase directly.

Choose “Input Method”.

Press   to choose “Wisdom” or “Ordinary”, then press  to confirm.

Speech Level

It is for adjusting the rate, frequency and volume for the speed. After setting, press  for testing.

Choose “Speech Level”.

Press  to move the cursor to choose desired

Chapter 6 Reference

item.

Press   to adjust the item, then press   for testing, press  to confirm.

Auto Off Period

It can set auto off period. This system will auto off in order to save the power if there is no key activation within that period of time.

Choose “Auto Off Period”.

Press   to adjust the auto off period, and press  to confirm.

Press  to exit.

First Screen

It can set “First Screen Status”, “First Screen Picture” and “First Screen Ring”.

Choose “First Screen”.

Press   to choose “First Screen Status”, “First Screen Picture” or “First

Chapter 6 Reference

Screen Ring”, then press

 to confirm.

Choose “First Screen Status”.

Press   to choose “Main Menu” or “Resume Screen”, press  to confirm.

Choose “First Screen Picture”.

Press   to choose item and press  to confirm. If choose “First Screen Picture”, press  to choose, and press  to view the pictures.

Choose “First Screen Ring”.

Press   to choose rings, and press  to confirm. Press  to choose, and press  to play the ring.

Chapter 6 Reference

Game Lock

You can set a game password with eight numbers, letters or symbols. Once entering the games, you should input the password. For details of setting off and clearing password, please refer to “Set Password”.

Menu Display Mode

It can set “Graph Display” and “Text Display”.

Choose “Menu Display Mode”.

Press   to choose item and press  to confirm.

6.10 Memory Check

To check the occupied memory and free memory in percentage.

Choose “Memory Check” to enter, press  to exit.

6.11 Brief of Function

In this application, the brief of function of the unit is described.

Chapter 6 Reference

Choose “Brief of Function”
to enter.

Press   to view page
by page, and press  to
exit.

Chapter 7 Appendix

Appendix 1

7.1.1 Installation of PCSync program

System Requirement

- MD7100 main unit
- Specialized serial cable
- “INSTANT-DICT” CD-ROM bundled
- The computer should be linked with the Internet,
Windows system requirements:
Suggest to use Pentium or above, or 100% compatible PC, with Windows®98, Windows®2000, Windows®NT or Windows®XP operating system. The memory should be 64M Bytes or above. If using Windows®XP operating system, the memory should be 128M Bytes or above.

Installation of Hardware and Basic Instruction

- Use the specialized serial cable to link the computer with the MD7100 main unit. You should put plug the smaller side of the data link jack to the main unit, and connect the other end to the computer serial port.

Installation of Procedure

- Enter Windows®98, Windows®2000, or Windows®XP operating system.
- Insert PCSync Program CD into the CD-ROM.

Chapter 7 Appendix

Then double click “Setup.exe” in the CD and execute. The following screen will appear:

- Choose Windows system language and press [OK], the following screen will appear:

- If you confirm to install this program, click [Next];
- If you want to quit, click [Cancel] to exit;
- Follow the installation process according to the hint on the screen after clicking [Next].

7.1.2 Uninstallation of PCSync

- If you want to remove the program from your computer, just run “Uninstall” to remove it. The following screen will be shown:

Chapter 7 Appendix

- If you confirm to remove this PCSync program, click “Yes” to continue, or click “No” to exit. When you perform the “Uninstallation of PCSync”, the followings will also be performed.
 - ✦ Remove the relative setting of this software;
 - ✦ Delete the group and icon;
 - ✦ Delete the folders and files of software.

7.1.3 Usage Instruction

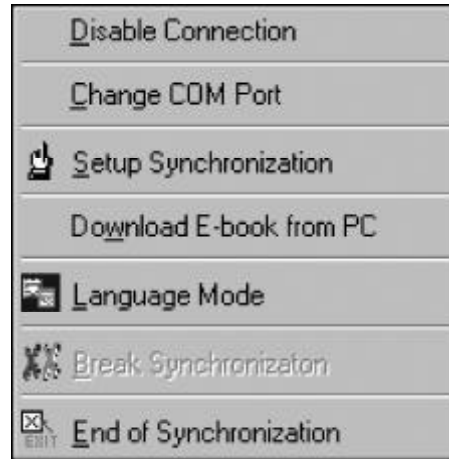

Start-up

- When the installation is completed, you can find the PCSync program shortcuts from the “Program” menu. Choose the relevant shortcuts and the PCSync Icon “” will appear on the taskbar.

Function Table

- Click “PCSync Icon”, the following screen will appear:

Chapter 7 Appendix

- ✦ Disable Connection: to exit PCSync transmission function
- ✦ Change COM Port: toggle COM1 or COM2 for transmission
- ✦ Setup Synchronization: please refer to “C.Synchronization setup”
- ✦ Download E-book from PC: please refer to “Appendix 2”
- ✦ Language Mode
- ✦ Break Synchronization: stop the connection
- ✦ End of Synchronization: exit PCSync program

Synchronization Setup

- Click “Synchronization Setup”, the following screen will appear:

Chapter 7 Appendix

- ✦ Show delete confirmation dialogue box:
If any data need to be deleted on one side (INSTANT-DICT), while not modified on the other side, delete confirmation will be shown.
- ✦ Start synchronization automatically once connected:
Set if the PC checks the synchronization status automatically and starts synchronization. Otherwise, no synchronization will start.
- Please select desired items for synchronization.

Note: Only the selected item should be done data transmission.

Chapter 7 Appendix

Advance Option

[General]

The data source is from Microsoft Outlook.

☞ Data process method:

➤ To deal with the PC Sync with main unit:

If the data of the two sides are both modified, user may choose which side should be placed and there are 4 options to choose:

- (1) Replaced with INSTANT-DICT
- (2) Replaced with PC data
- (3) Duplicated both records
- (4) Show dialogue

Note: After last synchronization, if any INSTANT-DICT or PC side files have been added, deleted or modified, the relative data on the other side will be added, deleted or modified when you process PCSync. If the data of two ports have been modified, the process will follow the “Conflict setting” .

Chapter 7 Appendix

➤ Transfer the PC port data to INSTANT-DICT:

The following screen will appear:

- (1) PC data join to INSTANT-DICT
- (2) Clear INSTANT-DICT data first then copy PC data data

➤ Transfer files from INSTANT-DICT to PC side:

Choose for Data Link Review:

- (1) INSTANT-DICT data join to PC
- (2) Clear PC data first then copy INSTANT-DICT data

Note: When choose one-way process, e.g. transfer

Chapter 7 Appendix

the INSTANT-DICT data to PC side, there are two ways of data link renew (see above pictures). If there is no INSTANT-DICT data, and “Clear PC data first then copy INSTANT-DICT data”, all the data would be deleted.

7.1.4 Synchronization

- Before synchronization, you should connect one terminal of the transmission cable to the data link jack of the main unit and the other end to the USB port of your PC. (Please refer to “Installation of hardware and basic instruction” for detail information.) Run PCSync program and enter “PCSync” in System menu, the following screen will be shown:

- Press **F1** to view your last synchronization information information, press **F2** to start synchronization.

Note: (1) Before performing Synchronization, you should confirm that your computer has setup “PCSync Program” and run smoothly.
(2) Before performing Synchronization, you can do the relative system setting.

Chapter 7 Appendix

(As for the setting of conditions, please refer to “Synchronization Setup” .)

7.1.5 Corresponding Table of INSTANT-DICT & OUTLOOK

- The table shows the corresponding names used in INSTANT-DICT and Outlook in your PC.

INSTANT-DICT	OUTLOOK
Telephone	Contacts
Memo	Notes
Schedule	Calendar

Note: You are strongly recommended to use Outlook97/2000.

Telephone

 Operation Procedures of the INSTANT-DICT:

- Enter “Telephone Directory”, input data and save it.
- Click “INSTANT-DICT PCSync” icon on the taskbar of your PC, and choose “Synchronization Setup” then click “Telephone” and select data handling method from “Synchronization Setup” .
- Click “Communication” icon in Main Window then press **F2** to start synchronization.

 Corresponding Operations in Outlook

- Enter Outlook, and move the mouse pointer to the place indicated as below, then left click.

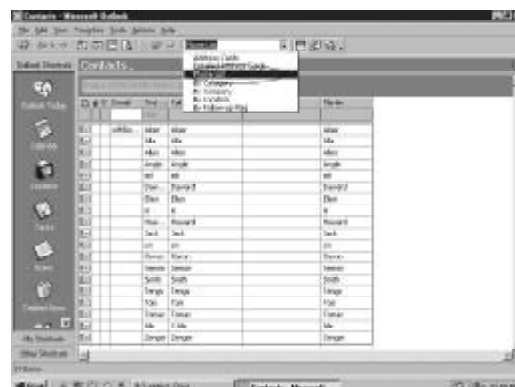

Chapter 7 Appendix

➤ Click “Contacts”.

➤ If you have transferred or inputted data before, click the pull down arrow in the following screen, and choose “Phone List”.

Chapter 7 Appendix

➤ The following screen will then appear:

➤ Double click a name, e.g. “Dong” to view its details.

☞ The table shows the corresponding names used in INSTANT-DICT and OUTLOOK.

INSTANT-DICT	OUTLOOK
Name	Full Name
Category	File as
H. Tel	Home
H. Adr	Home Address
Co. Tel	Business
Co. Fax	Business Fax
Notes	Notes

Note: (1) Data can be inputted or modified in either INSTANT-DICT or PC side.

(2) Data can be transferred “from PC to INSTANT-DICT”, “from INSTANT-DICT to PC” or by “Synchronization”.

Memo

☞ Operation Procedures of the INSTANT-DICT:

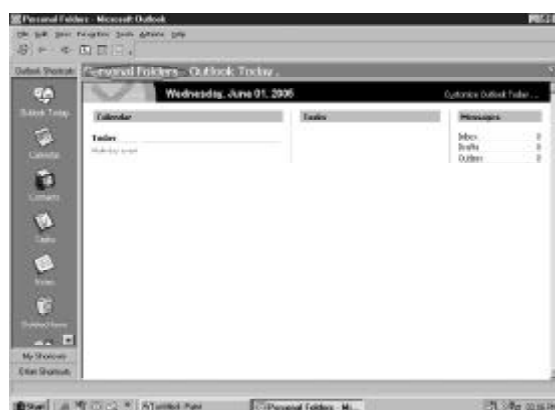

➤ Enter “Memo”, input data and save it.

Chapter 7 Appendix

- Click “INSTANT-DICT PCSync” icon on the taskbar of PC, and choose “Synchronization Setup”, click “Memo”, then select data handling method from “Synchronization Setup”.
- Click “Communication” icon in Main Window then press **F2** to start.

☞ Corresponding Operations in Outlook

- Enter Outlook, and move the mouse to the place indicated as follows, then left click.

- Open “Notes”, the following screen will appear:

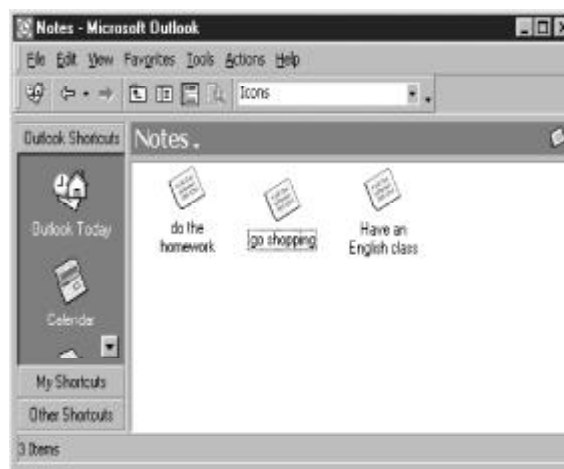

Chapter 7 Appendix

- Or click the icons on the left screen, the following will appear.

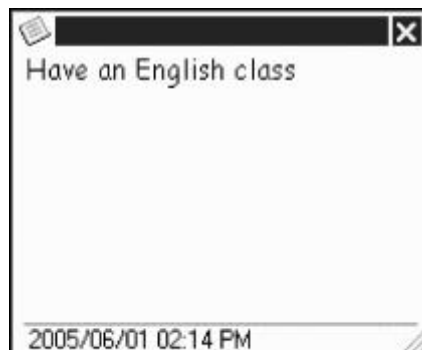

- If you have transferred or inputted data before, the following window will then appear:

- If you open the “Note”, the following window will apperar:

Chapter 7 Appendix

- Note:** (1) Data can be inputted or modified in either INSTANT-DICT or PC side.
- (2) Data can be transferred “from PC to INSTANT-DICT”, “from INSTANT-DICT to PC” or by “Synchronization”.

Schedule

 Operation Procedures of the main unit

- Enter “Schedule”, input data and save it.
- Click “INSTANT-DICT PCSync” icon on the taskbar of PC, and choose “Synchronization Setup”, click “Schedule”, then select data handling method from “Synchronization Setup”.
- Click “Communication” icon in Main Window and click **F2** to start synchronization.

 Corresponding Operations in Outlook:

- Enter Outlook, and move the mouse to the place indicated as follows, then left click.

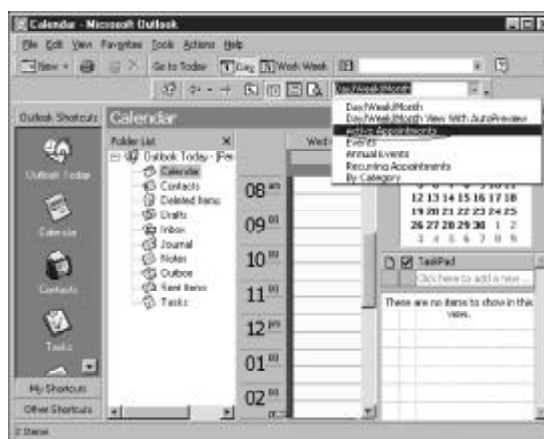

Chapter 7 Appendix

➤ Click “Calendar”

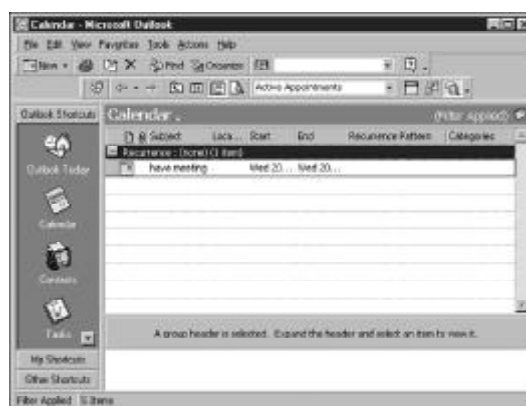

➤ Select “Active Appointments” as the following screen:

Chapter 7 Appendix

- If you have transferred or inputted data before, the following window will appear:

- Double click “Meeting my friends at 6....” with the mouse to view its details.

- ☞ The table shows the corresponding names used in INSTANT-DICT and OUTLOOK.

INSTANT-DICT	OUTLOOK
Date	Start Date & Due Date
Time	Start Time & Due Time
Content	Notes Field

- Note:** (1) Data can be inputted or modified in either INSTANT-DICT or PC side.
 (2) Data can be transferred “from PC to INSTANT-DICT”, “from INSTANT-DICT to PC” or by “Synchronization”.

Chapter 7 Appendix

Appendix 2

7.2.1 Download Ebook to INSTANT DICT

You can download INSTANT Ebooks from website, then transfer to the main unit, so as to you read them any time any where. (Note: Please run “EBook Editor Download” under Windows®98, Windows®2000, Windows®XP operating system in English or Chinese.)

Procedures for Downloading EBook:

- Visit Instant Dict website and choose the Ebook you want to download. After clicking your desired files, the following window will appear:

Click “ OK”, the following window will appear:

Chapter 7 Appendix

Enter “Study” function in main unit. And press **F1** and press “OK”, the Ebook data will download to the main unit.

The system will save the file to: “C:\ Program Files \ MD7100 PCSYNC \ Download \ GSL_eBook”.

➤ Click PCSync Icon “”. Choose “Download Ebook” and choose the Ebook you want to download from : “C:\ Program Files \ MD7100 PCSYNC \ Download \ GSL_eBook”. Enter “Study” function in main unit, press **F1** to start download.
